				5,712.91
<p>Estimate is good for 60 Days.</p> <p>This estimate is for completing the project as described above, based on our initial evaluation. It does not include potential increases in labor or materials that may result should unforeseen circumstances arise once installation begins.</p> <p>Terms Net 15 60% Down, 40% upon Completion Down-payment required before we can proceed.</p> <p>Accepted Installation Payment forms include: Check, ACH and Credit Card (additional 3% Convenience Fee will be added to CC payments).</p> <p>Network requires direction connection to an open port, WiFi enabled devices may necessitate the addition of a dedicated router and/or WiFi Extender for network management.</p> <p>Scope Of Work:</p> <p>TECC is to provide a video intercom system for the front vestibule door and will connect it to the doors access control system for allowing access to be granted. TECC will provide and install (5) video intercom 7in Monitors for the locations layed out on the design. These locations include, Admin office, Fire Chief's office, Fire Investigators Office, Watch Room, and Kitchen.</p> <p>Contractor is to provide and install CAT6 cable from each device location back to the Comm/IT closet. 18-4 wire is be installed from the front video intercom call station back to the IT room where it will interface with the access control system.</p>
