Moved by Commissioner _____ and supported by Commissioner _____.

WHEREAS, during the water main installation at the intersection of West Main Street and Maple Street, the contractor, Harris Construction, discovered an existing 10-inch clay storm sewer pipe that is undersized and in poor condition; and

WHEREAS, while the majority of the concrete storm sewer on West Main Street remains in fair to good condition, this specific clay segment was not replaced during previous projects; and

WHEREAS, this section of clay pipe was not previously televised, meaning its deteriorated condition could not be determined prior to the start of the project; and

WHEREAS, the engineering firm, Wightman, recommends replacing the existing 10-inch clay pipe with a 12-inch concrete pipe to reduce the risk of future failure and protect the newly constructed roadway; and

WHEREAS, the total cost for the contract change order is \$9,605.00 which was unbudgeted but can be fully funded through the City's current cash position;
