County Contact RE: Stormwater Assessment Program	Emily		UPDATE: Uploading site plan files into the Dropbox for the consultant, determining which hard files are missing to coordinate a handoff meeting. Held the kick off meeting for the Stormwater Analysis project with PWC and JMT on July 2nd. the main focus areas are 1. An existing channel between Fayette and Jefferson Street just South of Washington Street, 2. A historic water collection point between the Crossroads Village Center Development and the older single family homes on the north side of Fayette Street, and 3. A channel behind Haymarket Baptist Church that leads to I 66. I will connect with the Town Engineer to determine if this focus area is still an ongoing issue, the last report we had on the issue was in 2019. If this area is not a top priority I will work with JMT to allocate the funding to a widespread analysis of the stormwater systems. JMT is preparing a new timeline for the project with an end date in Spring/Summer 2026. I will share the updated timeline when I receive it. PWC, JMT and the Town will meet on a monthly basis for the project.
