

PROPOSED AMENDMENT CONCEPTS

- Maximum height for Accessory Marine Facilities = Base Flood Elevation (BFE) plus 7 feet.
- Exempt personal watercraft (PWC) lifts from the requirement that “in no case shall the lift be higher than the superstructure of the boat when lifted” OR remove requirement.
- Maximum seawall cap width = 3 feet; maximum seawall cap plus dock width = 8 feet.
- Encroachment into water at 25 feet or 25% of waterway width, whichever is less (measured from the shortest distance adjacent to property line).
- 10 foot side setback for all zoning districts. For lots < 100 feet in width, setback is 10% of width; however, setback cannot be less than 5 feet.
- Require a ladder for every 50 feet of dock.

ADDITIONAL CONCEPT:

- Maximum seawall height
