

Introducing the **epoc® Blood Analysis System**

Portable Blood Analysis

The epoc system is a compact, portable device enabling on-the-spot blood testing wherever needed in healthcare settings.

Rapid, Accurate Results

It provides critical blood gas, electrolyte, and metabolite results in minutes, supporting urgent patient care decisions.

Streamlined Clinical Workflow

The handheld platform simplifies diagnostic processes, allowing paramedics to act quickly and efficiently.

All our paramedics undergo hands-on training with the epoc® system to ensure rapid, effective use in the field.

Benefits to the Community

- Faster emergency care on scene
- Real-time diagnostic information
- Improved patient outcomes
- Supports critical decision-making in the field

Thank You!

We sincerely thank the **Highland Beach Police and Fire Foundation** for donating the epoc® Blood Analysis System—an important tool in enhancing patient outcomes.
