Subject: Being a member of the Advisory board
Date: Thursday, February 4, 2021 2:51:57 PM

Hi Lanelda,

I would like to share with you my thoughts about my ending membership of the Natural Resources Preservation Advisory Board. I told you already that I would not like to continue after my term in July 2021. And that did not change. Well, yesterday in our zoom meeting, member Halpern informed us it was his last meeting and than Mrs. Stern also shared she might move away from Highland Beach and will be not able to serve. Now that does not sound good! And I did not want to break my "bad" news. Mr. Halpern than stated, that in case there would be not enough members to build a Quorum, he would stay on. He would not like to see this board go. And I totally agree with him. Since I am not in an urgent situation I would stay on if there are not enough new members found. I am still hoping there are many interested Highland Beach residents, who will come forward and want to serve. Please keep me posted.

I would not like to continue for very long or for another term.

Thank you very much
be well Katharina Braun
