- h. In the event of a water leak occurring on the consumer's side of the meter, the Town Manager may offer a one-time courtesy adjustment to provide financial relief to a consumer who is experiencing a higher than usual water bill. To be considered for this courtesy adjustment:
 - i. The water bill in question must not be from the billing period more than two billing cycles prior.
 - ii. The consumer must not have used a courtesy adjustment in the past, and
 - iii. The consumer must demonstrate that they have repaired the water leak (i.e. plumber's invoice for repairs).

If a consumer is granted a courtesy adjustment, the Town will estimate (by comparing historical usage of the account) the amount of the water leak and deduct it from the consumer's total usage for the billing period. The difference between the total usage and the water leak portion will be considered the consumer's regular usage for the billing period and will be billed according to the rate structure provided in Section VI. The estimated water leak portion of usage for the billing period will be adjusted and billed at the lowest tiered rate provided in Section VI.

Notwithstanding the above, the town manager in his or her discretion will have the flexibility to allow up to four (4) installment payments of bills which are unusually high as measured by past bills for the property in question. The town manager's discretion will be on a case-by-case basis using his or her best judgment as each case arises.
