

# Public Works Report

December 5, 2023

We did cleanup back of curb on Jonson Ave. project. We are ready to see how it will work in the next rainstorm.

We were able to get enough base for the Hildale St. project.

Excavated the tie ins for the side streets off Hildale St. for the paving. The paving was finished, and they are working on the finish concrete work and manhole collars.

Removed the flood leftover on Carling St. and cleaned the creek crossing and the intersections that still had dirt on them throughout the town. Filled and compacted the washouts along the side of Garden Ave.

Paul got the front loader truck running with a little more work on the packer it will put to work so we can have a backup truck.

We have been filling the large crack with mastic tar on the taxiways on the airport.

Spent a couple days doing pothole repair. We are working on making our streets better.

Thanks for the opportunity to help improve our community.
