

Utility Director's Report

April 2023

Mayor and Council:

Utility Operations Summary:

Grants and Funding summary:

RCAC is working on our a water rate study.

The Mohave County ARPA project. We have the engineers proposal under review.

Water Department:

Continuing Water plant reconstruction. Water impact fee study has taken considerable staff time, in discussions and questions.

On the Mohave County ARPA project, we have the engineers proposal, under review.

Staff has spent time on Planning discussion on the upper pressure zone above Utah Ave, I don't have a proposal for presentation as yet.

Wastewater Department:

The headworks project is still in engineering. The storage pond is at capacity, 15.4ft of 15ft. The field lease is presented for action.

We are meeting with Centennial Park Sewer District, planning on ways to increase capacity at the lift station and lagoons to accommodate additional subdivisions, in the Centennial Park district.

The Utility Board motioned to approve the lease renewal for the disposal field.

Gas Department:

The Colorado City Natural Gas Gate Station, is ready for service. The next hurdle on that will be getting customer appliances converted.

We are expecting our order of 2” poly pipe here in April, we plan on laying a line from Mohave Ave to Academy on Hildale Street as soon as we get it, to be in advance of the Colorado City road project.

As Always, Yours to Serve,
Weston Barlow
Utility Director
