

Public Works Report

December 22, 2023

Cleaned the creek crossing culverts on Central Street at the creek crossing so the water can flow under. Straightened up and repaired the bent railing on Richard Street crossing.

Paul got the front loader truck running with a little more work on the packer it will put to work so we can have a backup truck.

We spent 3 weeks filling the large crack and alligator cracking with mastic tar on the taxiways on the airport and willow street south of Arizona Ave.

Repaired the hole on the south side of Hildale Street creek crossing and spent time doing pothole repair around town. We are working on making our streets better.

Thanks for the opportunity to help improve our community.
