

# Maxwell Park

- We've had a lot more people at the park, now that it's getting warmer.
- We've had the Dream Center send people up to put tree rings around 15 trees.
- Nathaniel and Shauna Barlow donated the chips to put around the trees. Cost of around \$200.00.
- Fertilizer has been put down on the lawns. It's getting time to put the second treatment down. All the water has been turned on.
- The garbage cans are being filled faster so we will be needing more bags sooner than we thought.
- We ordered a trailer to move the mower. (see picture) Cost of \$2,999.90. The trailer is being made by the 7 Sons Welding Company in Colorado City. The only thing different from the picture is ours will not have 2 wheels on one side.
- I've talked with the mower company, and it should be delivered before the 15th of April.
