Public hearing: No
Date of public hearing: N/A

PRESENTER/INFORMATION CONTACT

Environmental Engineering Supervisor Bryant Green

ITEM TO BE CONSIDERED

Subject: Update on the Environmental Protection Agency's Lead and Copper Rule Revisions

Attachments:

Presentation

Summary:

In 2021, the Environmental Protection Agency adopted new, more stringent rules requiring community water systems to inventory their water services for lead pipe. Inventory must be publicly accessible and provided to the state by Oct. 16, 2024. Staff will provide a presentation outlining inventory, submittal and notification requirements and future steps.

Financial impacts:

No immediate financial impacts are anticipated, future projects will be discussed in the presentation.

Staff recommendation and comments:

None.

Action requested:

Receive presentation.
