Develop and maintain a safe, efficient, and sustainable multimodal transportation system (including bicycle, pedestrian, and transit options) that offers alternatives to single-occupancy vehicle trips and promotes health and access to area jobs, destinations, and services.
- Strategy:  
Adopt regulations that contribute to meeting identified transportation and connectivity needs in town.

#### Financial impacts:

None.

#### Staff recommendation and comments:

Staff recommends approval of the text amendment as written.

#### Planning Board Recommendation:

After the Joint Public Hearing on January 18, 2024, the Planning Board unanimously recommended approval of the proposed text amendment (8-0). An excerpt from the draft minutes for the Joint Public Hearing is included on the next page.

**Item 6C. Text amendment to UDO Section 6.21.2 Streets - Applicability (staff-initiated)**

Boyle explained this amendment clarifies that the section applies not just to new streets but also improved streets. Bell asked if the difference between new and improved had ever been an issue. Campbell said no, the distinction is a standard one that isn't currently codified in the UDO. She said an improved street might be one whose layout is changed when a property is redeveloped. Hornik added that some private streets in the Waterstone development that were turned over to the town would be classified as improved. Campbell added that an improved road is one that has been more than resurfaced, for instance a gravel road that was converted into a public paved road. She noted the town's standards for public roads are somewhat more stringent than those of the NC Department of Transportation (DOT).

After the public hearing closed, Boyle explained the board was not required to make recommendations that evening but could recommend any amendments it was ready to recommend.

Motion: Schultz moved to recommend approval of the text amendments in sections 6 A, C, D, and E on the agenda as written. Schmidt seconded.

Vote: 8-0. Motion passed.
