Subject: RE: [External Email] street lights

Hi Susan,

Please see attached LED agreement letter. There is no upfront cost for the conversion, however CenterPoint may request recovery of the expenses associated with converting the lights to LED through either a distribution capital recovery factor application under Public Utility Commission of Texas Substantive Rule 25.243 or other rate proceeding. The exact method and duration for the recovery has not been determined, so I am unable to provide the future cost. Typically, it is a small charge applied to every customer's bill for a defined time-period. Once the costs are collected, the charge is removed.

If you would like to proceed, please sign and return the attached agreement.

Thanks,

Angie
