July 15, 2021

City of Hilshire Village  
Mayor Russell Herron  
8301 Westview Drive  
Houston, Texas 77055

RE: Regional Public Education Services Program

Dear Mayor Russell Herron:

On 1/8/2019, an Interlocal Agreement for the Regional Public Education Services Program, Agreement No. 2019-90 was executed. In Section 6, Term of the Agreement, it states the agreement will automatically renew on an annual basis, unless terminated.

Therefore, please submit the payment of \$395.38 in accordance with Section 5, Amount of Compensation and Basis for Payment.

We look forward to partnering with you for TPDES MS4 permit compliance with the Texas Commission on Environmental Quality.

Sincerely,

A handwritten signature in cursive script that reads 'Sheldra Brigham'.

| <b>Field Comments:</b>                    | Arrived at job site, continued setting up traffic control; Also contacted Customer, continued excavating by hand in front meter box and removed two small plants and Mail Box. Then had to waited for Field Tech too long to Isolated Main Line; Continued excavating on one side of Short Tap, also used Trash Pump to pulled water out from excavation; Then finally Field Tech turned water off. Continued excavating next to Blow Off all the way down to Main Line, found leak on B/O ( Galv. 90 ). Continued breaking Concrete and replaced Blow Off all the way with Gate Valve 2" and Meter Box. Then Field Tech turned water back on and flushed B/O; Continued backfilling, put Mail Box back, cleaned, secure area, did wash down and pick up traffic control. | Field Comments:                          | We went to job began setting up traffic control continued excavating carefully down located sanitary line 4" and then we cut a section about 2ft where the operator said was the problem. And we found that the pipe was full of grease or chlorine, we don't know what it is, but it had a problem then we excavating 15 feet to the street we cut another section about 2ft and we find it just as full grease so we pass them to the other side of the street and we excavating down to sewer main located saddle 8"?4 and it looked good. So we cut him a piece of pipe in from of the saddle and we find the same problem pipe full grease so we connected the hose to the f/h then put it inside the pipe and pressure cleaned it and it was clean, everything looks good. Then we put the piece of pipe back with two fernco and concrete mix around it. Backfilling then we passed it across the street and reconnected the house line sewer with 45" and new pipe backfilling cleaned secure area did wash down and pick up traffic control NEW W/O 45 yards of sod |                          |                          |                 |          |

| Field Comments:                           | Arrived at job site, then setting up traffic control; Continued contacting Customer, then excavated carefully next to Broken Fire Hydrant all the way down to Main Line. Then turned Hydrant Valve off, continued breaking and removing concrete from behind Hydrant Boot; Also had to waited for Delivery ( Parts ). Continued Connecting and Installing new Fire Hydrant, then secure with Pipe Restraint, two Galvanized Nipple 2" x 36" and Concrete Mix. Then backfilled, cleaned, did wash down and pick up traffic control. NEW W/O: 26 Yards Of Sod |                          |                          |                 |          |
