## MUELLER® FIRE HYDRANT STORZ Pumper Connections

## **Quick-Connect / Full Pressure Rating**

ueller Centurion hydrants (traditional or Modern styles), can be ordered with an integral, Mueller designed and manufactured Storz connection on the pumper nozzle. The connection is also available separately to retrofit hydrants in the field. Making our own Storz connection means your Centurion hydrants remain '100% Mueller' for assurance of reliability.

The Mueller Storz connection allows the fire department to connect its pumper hose to the hydrant with a quick, quarter-turn action. The action is fast and smooth so fire fighters can get to their tasks quickly without the thread alignment, cross threading, or leakage problems sometimes associated with threaded connections.

The Mueller Storz option is available for 4" and 5" pumper nozzles on any Centurion 200™, 250™, or Modern hydrant. Mueller hydrants retain their UL Approval, FM Listing, AWWA Compliance and published pressure rating when ordered with the Storz option. Hydrants are also compliant with NFPA 1963. To order, specify Storz size, and locking or non-locking caps.

Mueller also offers latching and non-latching 5" Storz adaptors for connection to 4-1/2" NST nozzles. Mueller Storz adaptors feature the same caps used on the integral Storz nozzle and meet the requirements of NFPA 1963. Mueller Storz adaptors are rated for 250 psi operating pressure.

For more information, contact your local authorized Mueller Distributor, Mueller Sales Representative, or call our Customer Service Center at 1-800-423-1323.
