Municipal Liquor Store/Bar

February didn't prove to be the best month as we move out of "Dry January". We did expect this slow start to the year, as we do usually every year, so no need to ring the alarm just yet.

March is when we typically start to pick back up. St Patrick's Day will be a key focus for us as we move towards the day. Off sale and on sale both will be looking to have some events and sales/specials to help promote more traffic.

We are seeing some price increases on many of our goods. It is predicted that these pricing increases will continue into the year, and so I did decide to stock up heavily on some of the items predicted to raise significantly. Whether the price increases come or not, we will be prepared to weather that storm.

Our on sale recently went live on our new POS system, Toast. So far I really like its versatility, depth, and ease of use. As we get more comfortable with the system, it should to prove to be a huge asset to the business.
