

Currently Proposed Design

- Cream-colored brick – similar to existing building
- Stone accents remain unpainted (including cornice)
- Window frame remain metallic silver or white
- Non-illuminated rectangular signage

Alternative Design for Consideration

- White-colored brick– lighter/less tan than existing building
- Some stone accents (cornice, sills) painted black
- Window frames replaced as black frames
- Illuminated back-lit signage

The applicant has requested input from the Appearance Commission on the color/design selection for the building, as well as signage.
