Real Wood Aesthetics Capped Composite Cladding COC-06

Composite Cladding

Specifications

The COC-06 in the Capped Series is a popular exterior cladding. Capped composite siding is more water-resistant since it has caps on all four sides. It also resists bacteria, mildew, and stains nicely. Better yet, it is available in a wide variety of hues. That means you have more choices when it comes to interior design.

Composite Cladding

Description

The composite cladding from COOWIN has the advantage of being resistant to weather, water, and insects. Upkeep is easy because it only needs to be cleaned occasionally to look brand new. For any building project, composite wall cladding is an excellent option due to its strength, durability, and aesthetic appeal.
