**Subject:** Great service

On Monday July 14th, I called 911 about speeding cars. For the first time in 5 years, I felt heard. The young man that answered cared, it was weird. The cops did nothing about the speeding, but the person that answered at 911 didn't give me \*\*\*\* about calling and reporting speeding cars. The cars are still driving 50 in a 25 on 187th and something needs to be done, but at least the 911 calls are being handled properly now.

Thanks,  
Bob Robertson
