Subject: Science Center Questions

External Sender: Use caution with links/attachments. Use caution when replying. If you are unsure please contact IT.

1. What is the an explanation for the 11% increase in the Science Center budget?
2. The budgeted monies that are given to the Science Center - what do those funds go to? Personnel, building costs, programming? I can no longer find a budget on their website.
3. What services are provided to the Science Center from the village that are not included in the 200,000? For example, who pays the utilities? Who provides and pays for maintenance in the building?
4. What is the plan for the building on Ridge?

Thank you in advance.
