MEMORANDUM

To: Mayor Lynch/City Council Members
From: Troy Body, CAO *Tb*
Re: T-Mobile Community Grant
Date: 13 October, 2021

Mayor, the City of Hopkinsville is the recipient of a \$50,000 T-Mobile Community Grant. The city received the check from T-Mobile yesterday (10-12-2021.) T-Mobile encourages the city to use the grant for the benefit of the community. With your approval, I am recommending we award \$25,000 for painting and repairs to the Woody Winfree Fire-Transportation Museum and \$25,000 for technological upgrades to the Boys and Girls Club.

Please see attachments.

WOODY WINFREE FIRE-TRANSPORTATION MUSEUM

The **Town Clock** on the Woody Winfree Fire-Transportation Museum is the most iconic architectural element in all of Christian County, and **it needs attention**. The Museum has taken on the responsibility of its maintenance and upkeep, but our resources do not always afford us the ability to give it the care that it deserves.

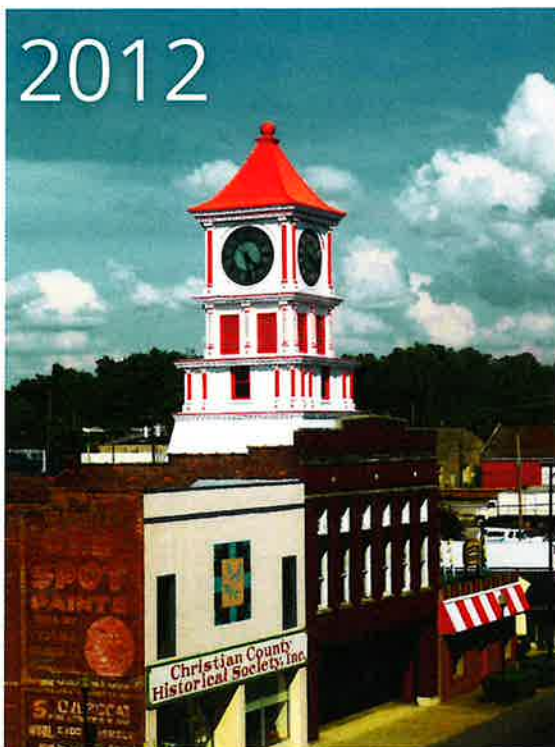

On average, the Town Clock requires painting every four years. It was last painted in the summer of 2017 in preparation for the eclipse. Painting the clock includes the rental of a 75-foot, articulated lift, the purchase of oil-based paint, and the labor of one painter.

We estimate that the painting project will cost \$20,000.

In addition, window repair is still needed at the Pennyroyal Area Museum. This repair also requires the use of a lift and can be done in coordination with the Town Clock painting.

We estimate that window repair will cost an additional \$5,000.

We hope that you will consider supporting the museum as we work to make downtown Hopkinsville a more vibrant place.

September 14, 2021

Mayor Lynch,

The Boys & Girls Club wants to provide a safe space for kids and teens to not only have fun but also to reach their full potential by providing opportunities to learn and gain new skills so that they are workforce ready. The inclusion of the Boys & Girls Club in the T-Mobile opportunity will allow us to increase security for the youth we serve in the following ways:

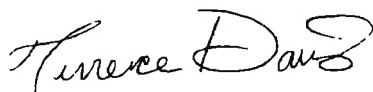

Security System – A new security system ensures the safety/security of Club equipment, staff, youth and others who use the facility, as well as the building and grounds.

Upgrade our camera system – We need cameras in the new cafeteria and other areas throughout the main building.

Cafeteria Window/Door Clings – The clings deter unwanted on-lookers while still allowing staff and youth to see who is approaching.

Defibrillator - A defibrillator will help in a medical emergency and increase sudden cardiac arrest survival rates.

I have attached a cost breakdown for the items discussed above. I greatly appreciate this opportunity.
