

Where Life is Sweet

Mayor and Members of the City Council
STAFF REPORT
For the Meeting of January 12, 2026

Title/Subject

Resolution 2403- Adopts revised Public Works Standards, Technical Specifications, and Standard Drawings Manual.

Summary

This resolution will makes multiple revisions to the existing Public Works Standards manual, with all being relatively minor changes based on industry best-practices.

Background

The Public Works Standards, Technical Specifications, and Standard Drawings Manual is a very large, detailed set of engineering criteria for developing various infrastructure systems including water, wastewater, streets, and stormwater. From time to time it becomes necessary to add, remove, or revise items from the manual. These changes can come internally from staff who notice a need for change, or also from private contractors in the community who have to do work on our systems.

Due to the magnitude of the document, it had gone many years without a major in-depth revision, but Anderson Perry & Associates, in conjunction with Public Works Staff, finally completed this revision several years ago, and it was adopted by City Council. Now the intention is, to avoid this situation in the future, to perform periodic updates every couple of years, with only minor revisions necessary. This is one of those sets of minor revisions..

Tie-In to Council Goals

Goal 3: "CITY FACILITIES: PUBLIC FACILITIES THAT MEET THE COMMUNITY NEEDS OF TODAY AND THE FUTURE."

Fiscal Information

This change has no fiscal impact.

Alternatives and Recommendation

Alternatives

1. Approve Resolution 2403
2. Reject Resolution 2403
3. Table Resolution 2403

Recommended Action/Motion

Approve Resolution 2403
