Projects

The Southwest Hermiston Urban Renewal District is a highly focused area intended to facilitate residential development in an isolated, costly development area. Urban renewal funds are intended to be used only for large-scale public infrastructure projects and park development. Funds were not expended on these projects in the 22-23 fiscal year due to the timing of district formation. However, during the 23-24 fiscal year, funds were budgeted for design and engineering of the major water and sewer lines and necessary water storage and pumping infrastructure. Infrastructure development loans from the State of Oregon revolving loan fund are planned for use to design and construct these improvements. Urban renewal revenue will be used for debt service in future years. As of the date of this report, all design work has been self-funded through the utility enterprise funds and no loan proceeds have been expended nor require reimbursement.

- Total cost of non-capital expenditures (including debt service) was \$0.

Conclusion

The Hermiston Urban Renewal Agency is a growing operation. Formed originally to administer the Downtown urban renewal district, the agency has expanded. In 2022 the Southwest Hermiston urban renewal district was added to support residential development. In 2023 the North urban renewal district was formed to promote additional commercial development.

In the ninth year of operation, the downtown urban renewal district continues to have a minimal impact on other taxing districts. The total revenue foregone remains less than 1% of all revenue collected by all affected agencies, with the exception of the City of Hermiston which had 1.6% of total taxes foregone to the district. As the assessed value in the district increases as a result of improvement within the district, the overall impact will remain small for the foreseeable future.

Looking forward to the long-term health of the district, revenue continues to exceed the projects in the 2013 plan, typically exceeding planning assumptions by approximately 10%. This excess revenue bodes well for the district as all urban renewal planning utilized the most conservative growth projections and projects were generated using these conservative projections.

In the first year of existence, the south Hermiston urban renewal district did not have an impact on other taxing districts. To date, all design work has been completed using utility enterprise zone funds and no other sources of revenue have been collected. It is not anticipated that work will continue in the 2024/24 FY but will resume as new potential development is proposed.

With the formation of the North urban renewal district in 2023, the district has expanded again and will require additional reporting in future years. This district will begin incurring debt in the 24-25 fiscal year and work towards building an extension of NE Aspen Drive to connect N 1st Street with NE 4th Street, opening more land for retail development.
