Under State law, all counties must review their commissioner district boundaries after each fetleral census to ensure the districts are as equal in population as possible. Specifically, there should be no more than a 5% difference between the most populous and the least populous district in each county, at the time such district boundaries are adopted. Counties are required to use populous and the least populous district in each county, at the time such district boundaries are adopted. Counties are required to use populous and the least populous district in each county, at the time such district boundaries are adopted. Counties are required to use populous and the least populous district in each county, at the time such district boundaries are adopted. Counties are required to use populous and the least populous district in each county, at the time such district boundaries are adopted. Counties are required to use populous and the least populous district in each county, at the time such district boundaries are adopted. Counties are required to use populous and the least populous district in each county, at the time such district boundaries are required to use populous and the least populous district in each county, at the time such district boundaries are required to use populous and the least populous and the least populous and the least populous district in each county. The first populous and the least populous and the least populous and the
