Mr. Young,

I hope this finds you well.

I wanted to reach out to you regarding the June 24th Cuchara Trail Runs out of La Veta/Cuchara Mountain Park.

You'll again be receiving an additionally insured certificate from my insurance company in the coming days. I added the county as a precautionary measure as I did for the Snowshoe races. Just to be sure the county is protected.

I am working with Panadero Ski Corp for all things CMP for this event.

The main reason for my reaching out today is that we've had to make some minor course edits due to downed trees on USFS land. This reroute has our runners briefly running on CO-12 (0.14 Miles) so they may cross the road, then on Brook Drive, E Brook Drive, and Hill Road so that runners can access the Dike Trail (USFS). The first stretch is a total of 0.86 miles of County roads. Then.. to the south they will come out of the Dike Trail and onto Panadero Vista, then Ponderosa Road and Aspen Ave before once again running very briefly on CO-12 (0.39 Miles) crossing onto Panadero Ave. This second stretch totals 1.44 miles of county roads. I have attached a map of this area specifically for your review. County roads total 2.3 Miles

My question is... since we already have county permission to use CMP and associated county lands, do I need additional permission for runners to be on these roads? What other requirements might be requested to have runners run on these roads. I imagine that the biggest concern would be CO-12 and we could certainly have volunteers present to help runners cross safely. The other roads are in neighborhoods that don't see much traffic.

Thank you for your time and attention to this matter. I appreciate you

Respectfully,

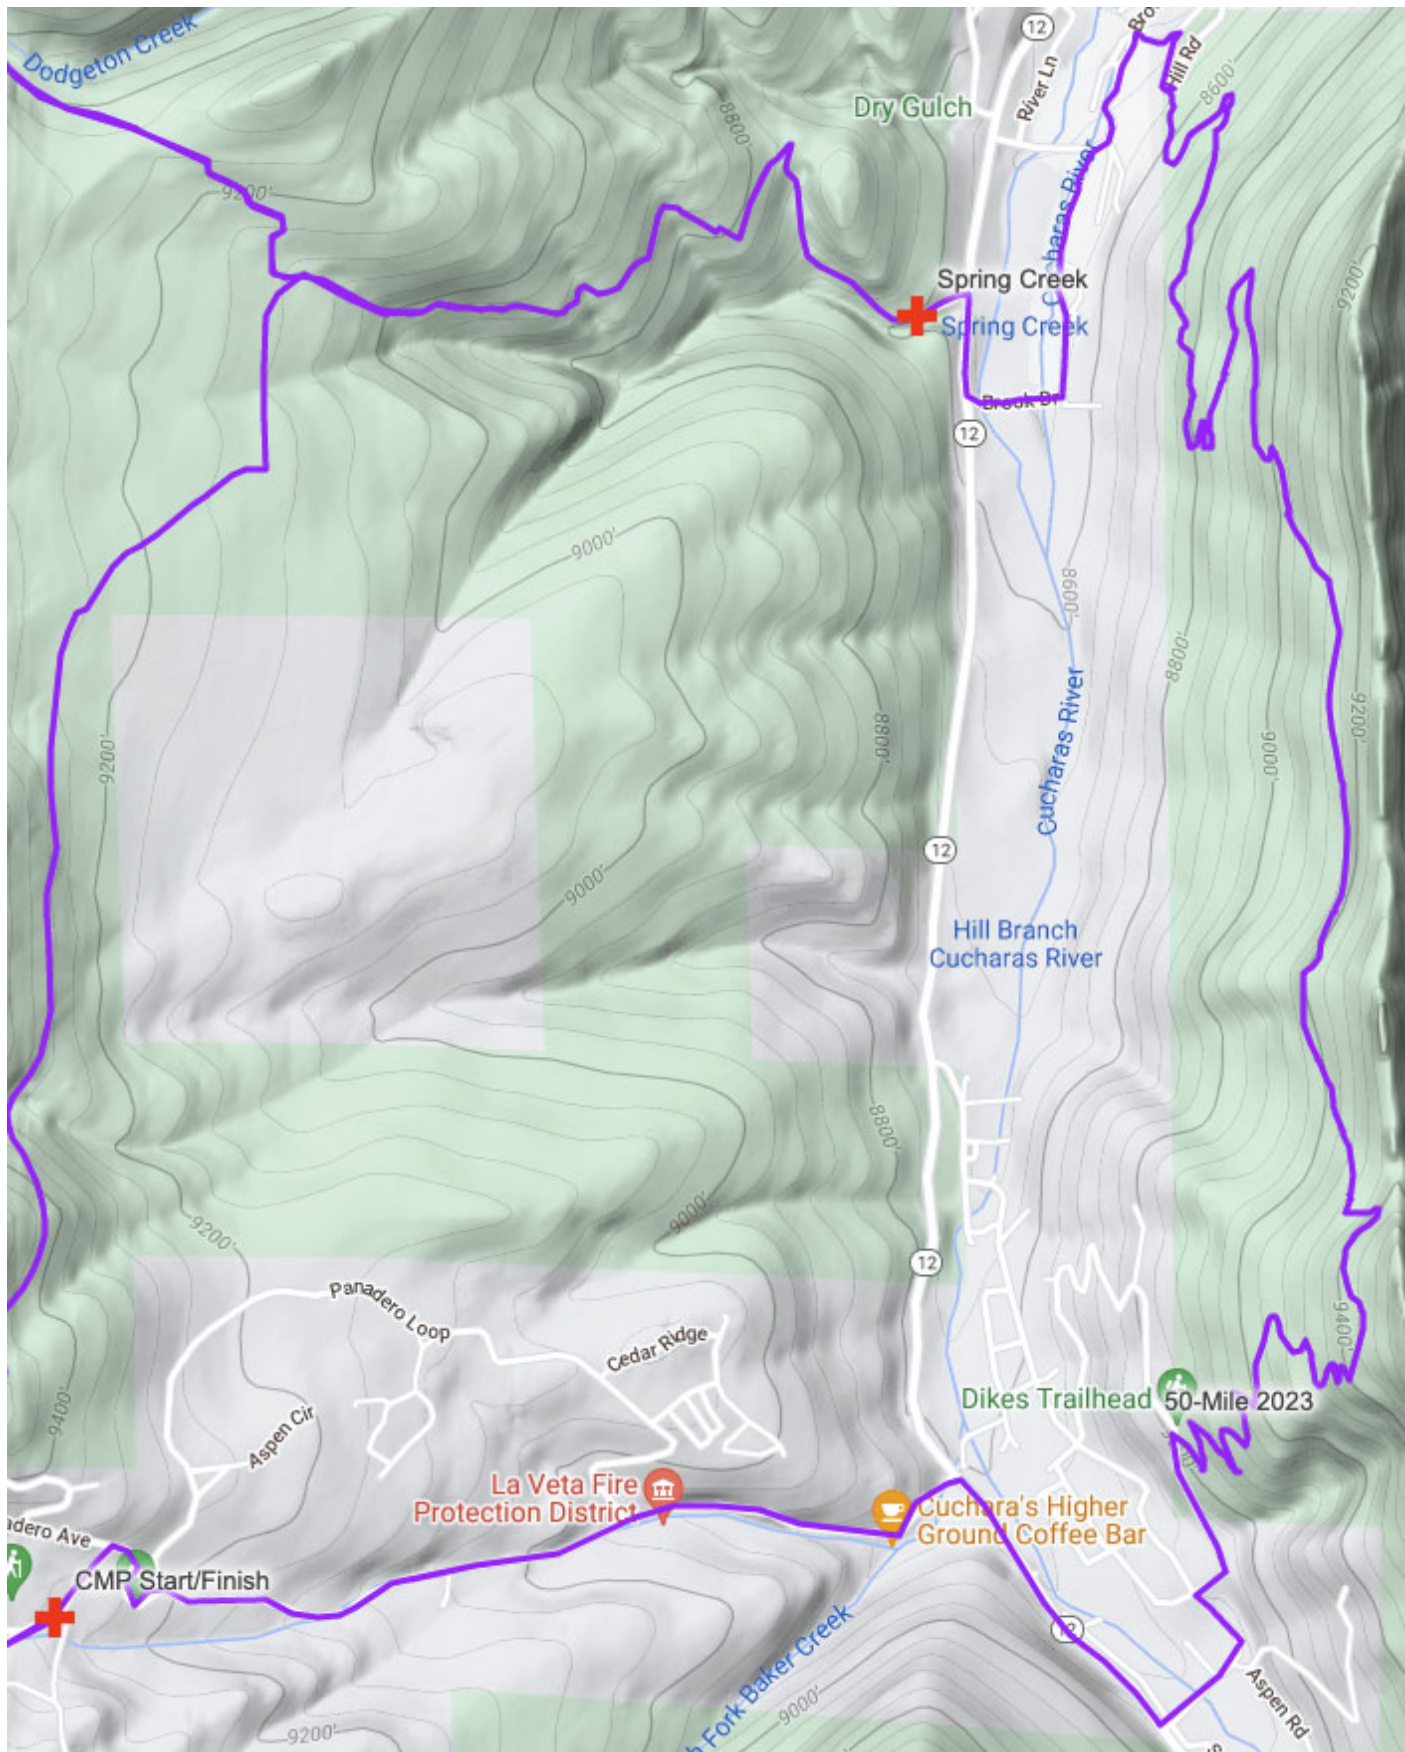

John P. Lacroix
