November 15, 2022

Huerfano County Commissioners

The Huerfano County Fire department is requesting that the county replace the extrication equipment on the rescue unit. They are getting old and not performing on the new cars as well as the new units do. We have been having malfunctions of this equipment more often than we would like. We have it serviced every year and it keeps breaking down or having trouble performing properly, causing delays in extrication of patients. This puts stress on the patients and the timeliness of the fire department to get them out. It also puts a lot of stress on the firefighters worrying about the what if's of delayed extrications. We would like to have equipment that we can trust to do the job when we get there.

I have attached a quote for the new Hurst extrication tools that have more power and longer battery life to get the job done.

Thank you
