

Your opinion makes a difference!

Help us improve the health of the bi-county region!

We're looking for community input to inform the development of our newest 5-year Public Health Improvement Plan (PHIP) to address public health concerns in both Las Animas and Huerfano Counties. The priorities in the plan serve as points of mobilization for public health, community partners, and residents to drive the action and direction for change.

Ways to get involved:

1

Take our Community Survey by **April 15th**.

Your survey response will help us determine the most important issues facing our bi-county region and identify priorities for the PHIP.

2

Attend one of our Community Presentations.

Community presentations will be held in both counties, in Trinidad on **May 6th** and in Walsenburg on **May 7th**. Visit our website to RSVP and reserve your spot!

3

Participate in a Community Focus Group.

Focus groups will be held in both counties for Las Animas and Huerfano County residents on **May 7th and 8th**. Visit our website to RSVP and reserve your spot!
