Background Information

Antonio Vidal of A&H Collision Repair has requested to amend the Site Plan for his business located at 210 S. I-45 in Hutchins, Texas. This request comes from his desire and need to construct a 32 Ft. X 38 Ft. awning in front of the existing building in the required front yard. The current zoning does not permit structures in the required front yard however Commissioners and Council may grant exception's through the Site Plan process (granting exceptions through this process does run the risk of setting precedent and consideration would have to be given should there be other requests.)
