RE: Former LKQ Site - 1300 IH-45 - Rezoning Application

To Whom It May Concern:

We respectfully submit this request for the following Specific Use Permits (SUP) for the subject property located within the City of Hutchins. This specific use application is complementary with our recent Light Industrial zoning application for this site, and it bookends that request with the several compatible uses we have found that were not automatically permissive within the Light Industrial Zoning designation alone.

Project Summary

The LKQ Former Site currently consists of a ±87,000 square foot warehouse facility situated on 28.3 acres along Interstate 45 in Hutchins, TX, a strategic infill location with excellent access to I-20 and I-45. The asset includes two distinct areas: ±41,000 SF serviced by 7 grade-level doors and ±46,000 SF with 20 dock-high doors. With 40' clear height, secured perimeter fencing, a stabilized yard, and zoning that permits outside storage, **the property is well-suited for logistics, transportation, and industrial users**. The facility benefits from its interstate frontage and significant yard-to-building ratio. The location and site characteristics are ideal for tenants requiring both warehousing and large-format outdoor storage

The site has been **vacant for over a year** and currently represents an underutilized asset within an established industrial corridor. Our objective is to tenant the property with **low-impact, well-maintained light industrial users** that are compatible with the City's long-term land use goals while improving the appearance and functionality of the site.

Site Improvements & Commitments

We are committed to working collaboratively with the City, and we are willing to undertake the following improvements as part of this request:

- Comprehensive **site cleanup and maintenance**
- **Exterior paint** and aesthetic upgrades where applicable
- **Landscaping enhancements** along visible frontages and boundaries
- Continued upkeep of the **existing paved frontage**, which already provides approximately **132 striped parking spaces** for employees and customers and access to 27 warehouse bays.

These improvements will materially enhance the site’s visual quality and ensure it reflects positively on the surrounding area.

Intended Uses

Our focus is to attract **low-intensity, Light Industrial users** such as contractors, service-based industrial tenants, or suppliers—that may require **incidental outdoor storage** without generating excessive traffic, noise, or nuisance impacts.

Desired Uses include service-oriented contractors with limited outdoor material storage, operating primarily during normal business hours such as:

<ul style="list-style-type: none"> • Commercial fencing & gate systems • Architectural metal / railings • Precast architectural elements • Decorative concrete / masonry products • Shade structures & canopies • Roofing systems manufacturers • Commercial window & glazing suppliers • Curtain wall / façade subcontractors • Solar mounting systems (non-retail) • Architectural millwork shops • Truss or LVL component fabricators • Custom cabinetry shops (commercial) 	<ul style="list-style-type: none"> • Engineered wood products distributor • Electrical apprenticeship programs • Welding schools • HVAC training centers • Utility workforce training yards • Electrical co-op staging • Fiber maintenance yards • Water district service centers • Traffic signal maintenance facilities • Agricultural equipment • Compact construction equipment • Trailers for sale only (not storage) • Specialized vehicles (utility, service bodies)
--	--

Specific Use Permits (SUP)s

The petitioners wish to enable the property to attract logistical fleet, warehousing, and industrial storage solution companies that may have the need for warehousing and data storage related construction materials. Items such as large cabling or wiring spools may be among the outdoor storage needs for such a company.

The following compatible uses are believed to be reasonable and in line with the long-term land use goals of P&Z leadership.

Category	Land Use	HC	LI	HI	Definitions	Current/ Proposed Tenant/ Owner
Transportation Uses	Motor Freight Company/Terminal*	S	S	P	A company using trucks or other heavy load vehicles to transport goods, equipment and similar products, or a premises where cargo is stored and where heavy load vehicles load and unload cargo, but excluding trucking as accessory to the primary use of the production or manufacture of goods or products. This term includes companies that move residential or commercial belongings and premises where such belongings are stored for any period of time.	The Frederick Companies (Trucking, Warehousing, and Industrial Storage Yards)
Commercial Uses	Heavy Machinery Sales/Storage*	S	S	P	A building or open area used for the display, sale, rental or storage of heavy machinery, tractors or similar machines, or a group of machines which function together as a unit.	
Commercial Uses	Truck Sales & Storage	S	S	P		
Industrial & Related Uses	Low Risk Industrial Manufacturing Not Wholly Enclosed Within a Building		S	S		
Industrial & Related Uses	Low Risk Industrial Manufacturing Wholly Enclosed Within a Building		S	P		

Outdoor Storage & Paving Waiver Request

The City has indicated a preference or potential ordinance requirement for **full-site concrete paving**. We believe that concrete paving will not help facilitate the desired uses, and moreover may inhibit the desired tenancy. The petitioners intend to request a **variance or waiver** from this requirement for the portions of the site intended for outdoor storage.

The reasoning is practical and site-specific:

- The existing **crushed aggregate base is extremely compacted, stable, and in good condition**, and is better suited to the intended use.
- The outdoor storage areas are intended primarily for **material laydown**, not vehicle circulation or parking.
- Full concrete paving in these areas would be **functionally counterproductive**, as heavy materials and repeated loading activity would rapidly damage the pavement.
- Retaining aggregate in these areas allows flexibility for future tenants while avoiding unnecessary infrastructure costs that may provide no public benefit.
- Importantly, the **frontage and operational parking areas are already paved**, maintaining a clean and orderly appearance along public rights-of-way.

Use Clarifications

We want to be clear regarding intended uses:

- **No truck or trailer storage** is proposed as part of this SUP request.

- The City has expressed that it does not desire truck- or trailer-storage oriented businesses at this location, and we fully respect and align with that position.

Our focus is on **attractive, low-intensity Light Industrial users**—such as contractors, service-based industrial tenants, or suppliers—that may require **incidental outdoor storage** without generating excessive traffic, noise, or nuisance impacts.

Conclusion

This request represents a balanced approach: it **reactivates a long-vacant property**, improves site aesthetics, respects the City’s policy direction, and allows practical flexibility for Light Industrial users without overbuilding or over-paving the site.

We believe the proposed request is **reasonable, context-sensitive, and in the City’s best interest**, and we welcome continued dialogue with staff and the Commission to address any questions or conditions.

Thank you for your time and consideration.

Respectfully submitted,

John Gonzalez
