Steve, that is the build sheet for the BASE PPV 2whdr with no options on it that is supplied on the SAT contract.

I am attaching a generic build that entities in the LONGHORN district (our metroplex area) can use to price units.

The attached build has most all the options on it with the cost associated with the options.

In Wave 1, I did not get any available units that I could order for Hutchins.

I am told that there may be some more units coming after January in which I will be looking to add over 190 units that I could not get placed in Wave 1.
