

TREE BOARD RECOMMENDATION

P22-19-CZD

April 19, 2022

PETITION REQUEST: Rezoning: Planned Residential Development - Conditional Zoning District

APPLICANT/PETITIONER: Mike Washburn

TREE BOARD ACTION SUMMARY:

The developer presented to the Tree Board on April 19, 2021. There were 4 members of the Tree Board present. The following Recommendation were made:

The Tree Board proposed the recommended conditions outlined below based on the following guiding city code documents:

Municipal Code, Chapter 46, Article IV, Division I, Trees & Shrubs, Section 46, 116 & 117; Zoning Code, Article XV Buffering, Screening & Landscaping Sections 15-1, A & C and 15-4 A; Subdivision Ordinance, Purpose and Intent, Section 1.04, Part H; Comprehensive Plan, Vision Statement and Section 3.3, Goal NR-1, Strategy 1.2 and Goal NR-2, Strategy 2.3 and;

The Tree Board's assessment that this tract contains an important and sensitive natural area, one of the few major wetland habitats remaining in Hendersonville and the tract lies adjacent to the Bat Fork Bog, a state designated Natural Heritage Area, the Tree Board recommends the following development conditions be placed on this property:

Recommended Conditions:

- 1) Provide and implement a vegetative planting plan developed by a landscape architect and approved by staff to vegetate between all built areas/impervious surfaces and the entire required buffer line along the wetland with diverse and appropriate species of native upland and wetland trees, native shrubs and other native perennial herbaceous plants (including warm season grasses, sedges, and plants important to pollinators) to enhance wildlife habitat, increase tree canopy, assist in stormwater filtering of pollution from built areas and slow down and infiltrate stormwater runoff from the site. No turf grasses can be used in this area and invasive plants (as listed in the city's Recommended Landscape Species List for Street Trees and Land Development Projects) must be removed; and
- 2) The developer shall protect the trees that they have proposed to save in accordance with Section 15-4 Existing Vegetation of the Zoning Ordinance; and
- 3) The developer should eliminate the proposed parking spaces at the apartment complex site where mature trees exist; and

TREE BOARD RECOMMENDATION

- 4) Implement a minimum 25-foot Type C Buffer without any walls, fences or berms (defined in Zoning Code Section 15-6 [c]) in all areas where the apartments [are proposed] bordering R-15 residential zoned properties to increase tree canopy, wildlife habitat, and provide additional buffering for existing residential areas. Existing non-invasive trees and shrubs should remain and can contribute to this buffer; and
- 5) Shift lots 7 and 8 to the common space area to preserve the mature Oak Trees where lots 7 and 8 are shown on the current site plan.

BOARD ACTION
