

HOW TO PLANT YOUR TREE

1. Look up for wires and lights
2. Dig shallow and wide hole (3x diameter of your pot)
3. Find the topmost root and treat root defects
4. Carefully place tree in hole
5. Position top root 1-2 inches above landscape soil
6. Straighten tree
7. Add and firm backfill soil
8. Add mulch
9. Stake and prune if needed
10. Water slowly 2-3 gallons the first time and 1-2 gallons/week until first frost.

HOW TO GET INVOLVED

- Get your hands dirty ... volunteer!
- Become a member of the Tree Board.
- Attend our programs and walks.

The City of Hendersonville's Tree Board serves as an advisory board for our City Council on tree canopy preservation, expansion, and associated projects. In addition, the Board educates the public on the benefits of trees, pollinators, and other natural resources.

- Educational talks
- Urban forest management
- Heritage Tree Program
- Bradford Pear Bounty
- Neighborwoods
- Tree City USA & Bee City USA
