**WHEREAS**, the WTP utilizes Coagulant; and,

**WHEREAS**, Coagulant is required by the state for coagulation, flocculation, and sedimentation; and,

**WHEREAS**, the City ran into issues with its current vendor's solution where some of it precipitated out into the bottom of the bulk tanks and formed back into a solid; and,

**WHEREAS**, on 5/2/2024, the City is recommended use of a different Coagulant formula which is sole source thru a different vendor. Please see that agenda and resolution for full context; and,

**WHEREAS**, the new formula recommendation of Coagulant is a proprietary blend only available from one source of supply. While there are other alternative non-coagulant products, none have this particular blend which is required for the efficient operations of our facility. Standardization of this blend is required; and,

**WHEREAS**, While there are other alternative non-coagulant products, none have this particular blend which required for the efficient operations of our facility. NCDEQ would require us to do further studies and get their approval to change from one blend to another. Another challenge with changing blends is that it could cause problems with our lead copper numbers as well as our water quality parameter numbers. Thus, standardization of this blend is required; and,

**WHEREAS**, NCGS 143-129(e) lists the authorized exceptions to the formal bid procedures. NCGS 143-129(e)(6) allows for purchases of apparatus, supplies, materials, or equipment to be purchasing using sole-source exception when: (i) performance or price competition for a product are not available; (ii) a needed product is available from only one source of supply; or (iii) standardization or compatibility is the overriding consideration. The governing board of a political subdivision of the State shall approve the purchases listed in the preceding sentence prior to the award of the contract; and,
