

Worx, LLC

May 8, 2025

To whom it may concern:

This letter certifies that WaterWorx 5.300 is a proprietary orthophosphate blend that was formulated by John Walsh and is manufactured by Worx in Charlotte, NC specifically for the water quality and corrosion control program of Hendersonville, NC.

The product is NSF certified against Std 60 for Drinking Water Use and we have specialized in blending phosphate blends since 1987. Worx is sole source for this product and does not have any distributors for the State of North Carolina.

Sincerely,

Signed

John C. Walsh
President

2010 Sterling Rd, Charlotte, NC 28209
