SUMMARY: *Here's a revised version of your text:*

The proposed project would rezone the properties located at 913 and 917 9th Avenue West from PID-CZD to MIC-CZD. These two parcels together total approximately 0.95 acres.

In 2023, the properties were rezoned to MIC-CZD for a proposed daycare center. However, because it was a conditional zoning district, the approved use was limited to that specific purpose. The current applicant now seeks to convert the existing building into office space, which requires a new rezoning request. They are proposing to rezone the property to MIC-CZD to align with the intended office use.

The submitted site plan meets the zoning and landscaping requirements for the MIC-CZD district. However, due to existing site constraints—primarily the presence of an existing building—the developer has proposed several conditions as part of the request.
