### **SUMMARY:**

The French Broad River Raw-Intake Project was publicly bid on October 14, 2021. This project is being funded by the NCDEQ Division of Water Infrastructure (DWI). Crowder Construction Company submitted the apparent low bid for the project. Each bid received was above the project's available funding. Additional funding was formally applied for through DWI to increase the North Carolina Drinking Water State Revolving Fund loan offer. We recently received the attached Amended Funding Offer for Drinking Water State Revolving Fund from DWI. The term of the loan is described therein. DWI requires a resolution by City Council accepting the loan offer.
