Residential dwellings, two-family

### 5-25-5 - Design considerations.

**5-25-5.13 Internal access and connectivity.** The site shall be traversed by a network of internal streets built according to city standards. Internal streets should seek to avoid cul-de-sacs and dead end roads and other features that hamper connectivity. However, roads may terminate at a monumental structure or green space. In such cases a sidewalk or other connection shall be provided to ensure the goals of connectivity. In addition, internal streets shall have sidewalks and street trees. If a bus line serves, or is expected to serve, the district, a bus shelter is required. Larger projects may require more shelters as determined by traffic impact analysis. Connectivity is a goal of the internal street system and external connections to areas outside and adjacent to the Urban Residential Conditional Zoning development should be created where possible. Only two driveways per block face are allowed. Single-family and two-family housing are exempt from the driveway restriction.

### 5-25-6 Limitations to Single-Family Detached Dwellings

**5-25-6.1 Single-Family Detached.** Single-Family detached dwellings shall comprise no more than 50% of the total units of any development. The remaining balance of residential units may be any combination of single-family attached, two-family and multi-family residential dwellings.
