Description of Project (200 words or less):										
<p>This project consist of the drilling of two wells for North Water Treatment Plant to replace the existing aging well # 3.</p> <p>Cost was derived from the Mascotte well-drilling contract with Hausinger, which the Town is piggybacking off of. Reserves are needed to pay non-grant funded amounts. Public Works Director and Sarah Whitaker are applying for additional SJRWMD Grants to cover existing non-grant funded amounts.</p>										
Justification and Urgency for the Project (When is it required to be complete and why?):										
<p>Well #3 is aging out, reaching the end of its life expectancy, and also becoming costly to maintain. The current well is also located on FDOT right of way, in which the Town's lease will run out in 2032.</p>
