

MEMORANDUM

TO: Town Council
FROM: GrayRobinson, P.A.
DATE: October 27, 2025
SUBJECT: Ordinance 2025-010 – Fire Alarm and Sprinkler Permitting Process

During the 2025 session, the Florida Legislature adopted revisions to Section 553.7932 of the Florida Statutes – “simplified permitting processes.” The revisions require that local governments implement a simplified permitting and inspection process with specific deadlines for fire alarm system and fire sprinkler system projects. The process allows contractors to begin work immediately upon submitting a completed application for a permit.
