

# Director's Monthly Report

Here's an overview of what happened at the library in June.

1

## Increased Borrowing

Book borrowing increased 29% in June! We circulated 3,506 items. People are reading, which is awesome. Let's keep up the good work!

2

## Successful Events

Library visitors had a blast with two standout programs that brought science and summer fun to life. The Orlando Science Center wowed audiences with their high-energy drones, and plenty of interactive moments that kept kids and parents alike on the edge of their seats. Meanwhile, Big Idea's Foam-Palooza turned the library lawn into a bubbly playground, where children danced and played in mountains of foam. We saw great attendance and positive feedback.

3

## Financial Overview

We received \$22.80 for late fees and \$48.55 for copies.

## Monthly Highlights

Overall, it was a successful month! We had more readers, great events, and improved online access. We are looking forward to continuing our Summer Reading Program!
