DATE	ACTIVITY	DESCRIPTION	QTY	RATE	AMOUNT
	<b>Acoustic Assessment Service - UT TD</b>	Acoustic assessment of sewer line pipes (12" diameter and smaller) utilizing Transmissive Acoustic Inspection Rapid Assessment Technology (SL-RAT). Service includes full assessment of designated pipes and delivery of assessment data in RH Borden Online ArcGIS Dashboard with additional ability to download data in .csv and .shp formats. Final cost based on actual footage assessed.	256,000	0.18	46,080.00
	<b>Level 1 Manhole Inspection - UT TD</b>	Manholes to be assessed and prioritized based on manhole condition and incorporated into acoustic assessment data set. Manhole assessments will include a 3-point risk scale (Low, Medium, High) across 5 sections of the manhole (Lid, Collar, Main Body, Trough, Overall Condition). Final cost based on actual number of manholes assessed.	972	10.00	9,720.00
	<b>Collection System Maintenance</b>	Cleaning lines identified by SL-RAT Assessment. (Estimated that 15% of assessed pipe will need to be cleaned) Final cost based on actual footage assessed.	38,000	0.60	22,800.00
	<b>Collection System Maintenance</b>	Cleaning of 1/4 of the larger (greater than 12" in diameter) sewer trunk lines. Video inspection of same cleaned trunk lines.	9,200	0.85	7,820.00
	<b>Crew Mobilization</b>	Crew Mobilization	4.50	1,500.00	6,750.00
