3. “*Qualified Use*” means the sale of electricity to retail customers located within the “electricity service area” of a municipal utility pursuant to generally applicable and uniformly applied rate schedules or tariffs; *provided* that: (a) “Qualified Use” shall not include any sale of electricity that gives rise to “private business use” or a “private loan” within the meaning of Section 141 of the Code; and (b) “Qualified Use” shall include such additional uses of electricity as may be approved by SEA (through UAMPS) with a favorable opinion of bond counsel. For purposes of this definition: (i) “electricity service area” has the meaning assigned to such term in U.S. Treasury Regulation Section 1.148-1(e)(2)(iii); and (ii) a “municipal utility” is a state or local government unit that owns and operates an electric distribution utility.

5. References to the “Bonds” in Section 17(c) [Sale or Assignment of Electric System or Power Sales Contract] and Section 17(f) [Tax Status] of the Power Sales Contract shall be deemed to include the Prepay Bonds at all times while the Supply Contract is in effect.

TALKING POINTS RE PREPAY TRANSACTION
NOVEMBER 27, 2023

OVERVIEW

- The Internal Revenue Code and US Treasury Regulations ("Tax Code and Regulations") contain special provisions that allow tax-exempt bonds to be issued to finance prepayments for natural gas and electricity. The prepay transactions are structured to convert the difference between the issuer's lower (tax-exempt) cost of funds and the prepaid energy supplier's higher (taxable) cost of funds into a discounted price for prepaid energy.
 - The initial discount is expected to be at least 7.5% and will be determined before closing.
 - The amount of the discount will be reset periodically over the term of the prepay (every five to ten years) when the bonds are refinanced.
- UAMPS will assign existing gas or electricity purchase agreements into the prepay transaction and the discount will be applied to the contract prices under these agreements.
- The Tax Code and Regulations require that the prepaid (discounted) gas or electricity (including electricity that is generated using prepaid natural gas as fuel) be used by UAMPS members to serve retail customers in their municipal utility service areas. This is referred to as the "Qualifying Use" requirement.
- The date of closing has not yet been determined but will likely take place in Q1 2024.
- The term of the transaction is thirty years.

CONTRACT STRUCTURE

- Southeast Energy Authority ("SEA") will issue bonds for a 30-year prepayment for gas or electricity from a special purpose entity ("Prepay LLC") organized by J. Aron & Company, the commodities affiliate of Goldman Sachs & Co.
 - UAMPS has no obligation on the bonds issued by SEA.
- UAMPS will assign previously-executed gas purchase or power purchase agreement(s) to J. Aron through a Limited Assignment Agreement ("LAA").
 - The LAA does not require any changes to the existing purchase agreement, but will be consented to by the seller.
 - The LAA is designed to leave the seller indifferent to the prepay. All interactions between UAMPS and seller remain the same.
 - The amount of gas or electricity purchases assigned to J. Aron under the LAA establishes the monthly cashflows required over the 30-year term of the prepay.
- UAMPS will first assign a 5-year gas purchase made to fuel the Nebo Power Plant into the prepay.
 - UAMPS is assigning less than the total amount of prepaid gas to allow for flexibility in future assignments.
 - In the future UAMPS will assign other gas or power purchase agreements, such as Red Mesa or Steel Solar, into the prepay to support the required monthly cashflows and to continue to receive the discount from the prepay.
- The LAA provides J. Aron "flash title" to the assigned gas or electricity, which is then delivered to Prepay LLC, which is then delivered to SEA, which then delivers the gas or electricity to UAMPS.

- If the prepaid transaction terminates for any reason, the LAA also terminates and UAMPS and the seller are restored to their original positions.
- UAMPS will enter a “Commodity Supply Agreement” with SEA to purchase the gas or electricity from SEA at a discount.
- The bonds issued by SEA will need to be refinanced from time to time over the 30-year term of the prepay. When the bonds are refinanced, the discount available to UAMPS under the Commodity Supply Agreement will need to be reset.
 - Changes in market conditions could lead to a lower (or higher) savings for UAMPS.
 - The Commodity Supply Agreement will specify the minimum discount to be achieved for each reset period. If minimum is not achieved, UAMPS may choose not to take energy from the prepay project during the reset period.

QUALIFIED USE CERTIFICATE

- UAMPS has provided a resolution for the governing boards of the Payson Power Project Participants (“Participants”) that approves the form of a “Qualified Use Certificate” for the prepaid energy. Please have the resolution signed and returned to UAMPS.
 - Complete the resolution by filling in the date it was adopted on page 2 Please do not make changes to these documents without contacting UAMPS.
 - The resolution may be passed at any time.
 - Do not complete or sign the generic form of the Qualified Use Certificate that’s attached to the resolution. We will send you a final, individualized Qualified Use Certificate a few weeks before the bond closing for execution.
- The Qualified Use Certificate states that the electricity that the Participant receives from the prepay will be used to serve retail customers located in the established service territory of its electric utility system.
 - If, during the term of the prepay, a Participant uses the electricity for a non-Qualified Use, it agrees that it will cooperate with UAMPS to remediate the non-Qualified Use through its other power purchases from UAMPS.
- The Participant must also confirm in the Qualified Use Certificate that the amount of its historic electricity sales to its retail customers equals or exceeds the amount of electricity attributable to its Entitlement Share under the Payson Power Sales Contract.
