

RESOLUTION 22-03

A RESOLUTION SETTING ELECTRICAL POWER MONTHLY SERVICE FEES AND POWER RATES FOR ALL CUSTOMERS OR CANYON CUSTOMERS RECEIVING ELECTRICAL POWER FROM THE HYRUM CITY MUNICIPAL POWER SYSTEM.

WHEREAS, on January 6, 1994, the Hyrum City Council passed and posted an ordinance adopting the Hyrum City Municipal Code, a recodification of municipal ordinances encompassing the Revised Ordinances of Hyrum City and ordinances adopted through July 15, 1993; and

WHEREAS, Title 13 of the Hyrum City Municipal Code provides for the operation and maintenance of public utility services, including culinary water, wastewater, irrigation water, and electrical power; and

WHEREAS, Chapter 13.16 of Title 13 specifically sets forth those regulations governing operation of the municipal electrical power system, including the establishment of service rate schedules and related fees; and

WHEREAS, after careful review of industry trends and performance of the city's electric utility along with needs for capital and operational reserves, the City Council has determined that an adjustment to the power factor rate is necessary and standard.

NOW, THEREFORE, BE IT RESOLVED by the City Council of Hyrum, Cache County, Utah, as follows:

1. The following classes of service and service schedules are hereby adopted as the schedule of rates to be charged users of the municipal electrical system:

A. RESIDENTIAL SERVICE

I. General Application.

This schedule is for alternating current, single-phase electric service supplied at approximately 120 or 240 volts through one kilowatt-hour meter at a single point of delivery for all service required on the premises for residential purposes, at any point on the City's interconnected system (except Blacksmith Fork Canyon) where there are facilities of adequate capacity.

When there is more than one dwelling unit or apartment in a single building, the electrical wiring shall be arranged to allow separate metering of each unit or apartment; or the

charge for service will be computed by multiplying the minimum charges by the maximum number of dwelling or apartment units that may be served.

When a portion of a dwelling is used regularly for business, professional or other gainful purposes and fifty percent (50%) or more of the electrical energy is used for residential purposes, the premises shall be subject to this or other residential rate schedule. If fifty percent (50%) or more of the electrical energy supplied to the premises is used for other than residential purposes, the premises may be classified as nonresidential and the appropriate rate schedule applied. However, if wiring is arranged to allow for separate metering of residential and commercial or industrial consumption, this schedule will be applied to the residential portion of electrical power service.

II. Monthly Billing

Customer Charge:

\$ \$6.00 per service connection

Energy Charge:

\$.084560 per kWh for the first 500 kWh

.110295 per kWh for the next 250 kWh

.137648 per kWh for all over 750 kWh

Minimum: The monthly customer charge plus appropriate power and energy charges.

III. Requested Service Reconnection and Disconnection Fee:

\$25.00 per reconnect or disconnect

B. RESIDENTIAL - BLACKSMITH FORK CANYON

I. General Application.

This schedule is for alternating current, single-phase electric service supplied at approximately 120 or 240 volts through one kilowatt-hour meter at a single point of delivery for all service required on the premises for residential purposes, at any point on the City's interconnected system located in Blacksmith Fork Canyon (beginning at the City's easternmost corporate boundary) where there are facilities of adequate capacity.

When there is more than one dwelling unit or apartment in a single building, the electrical wiring shall be arranged to

allow separate metering of each unit or apartment; or the charge for service will be computed by multiplying the minimum charges by the maximum number of dwelling or apartment units that may be served.

When a portion of a dwelling is used regularly for business, professional or other gainful purposes and fifty percent (50%) or more of the electrical energy is used for residential purposes, the premises shall be subject to this or other residential rate schedule. If fifty percent (50%) or more of the electrical energy supplied to the premises is used for other than residential purposes, the premises may be classified as nonresidential and the appropriate rate schedule applied. However, if wiring is arranged to allow for separate metering of residential and commercial or industrial consumption, this schedule will be applied to the residential portion of electrical power service.

II. Monthly Billing

Customer Charge:

\$ 10.00 per service connection

Energy Charge:

\$.084560 per kWh for the first 500 kWh

.110295 per kWh for the next 250 kWh

.137648 per kWh for all over 750 kWh

Minimum: The monthly customer charge plus appropriate power and energy charges.

III. Requested Service Reconnection and Disconnection Fee:

\$50.00 per reconnect or disconnect

C. **RESIDENTIAL SERVICE - RENEWABLE WIND ENERGY**

I. General Application.

This schedule is for alternating current, single-phase electric service supplied at approximately 120 or 240 volts through one kilowatt-hour meter at a single point of delivery for all service required on the premises for single- or multi-family residential purposes only, at any point on the City's interconnected system (except Blacksmith Fork Canyon) where there are facilities of adequate capacity.

II. Monthly Billing

Customer Charge:

\$6.00 per service connection

Energy Charge:

\$.107391 per kWh for the first 500 kWh
.140080 per kWh for the next 250 kWh
.174812 per kWh for all over 750 kWh

Minimum Charge: The monthly customer charge plus appropriate power and energy charges.

Limits: This rate is restricted to residential users only who occupy single- or multi-family dwellings and energy provided under this rate is limited to a maximum of 1,000 kWh per billing month up to 80 percent of the city's total available renewable resource. All power consumed over the maximum allowable will be billed at the rate of 0.137648 per kWh. Subscription to renewable power is voluntary and the user may cancel at any time; however, having cancelled, the user may not re-subscribe more than once in any 12-month period.

III. Requested Service Reconnection and Disconnection Fee:
\$25.00 per reconnect or disconnect

D. SMALL COMMERCIAL (UNDER 35 KW)

I. General Application

This schedule is for alternating current, single or three-phase nonresidential electric service supplied at the City's available voltage at a single point of delivery through a demand or other type of metering installation for all service required on the premises by customers with a power requirement not greater than thirty-five (35) kW.

II. Monthly Billing

Customer Charge:

\$ 10.00 per service connection

Power Charge:

\$ 8.00 per kW for all kW over 5 kW

Energy Charge:

\$.097750 per kWh first 1,500 kWh
\$.051750 per kWh for all over 1,500 kWh

Minimum: The monthly customer charge plus appropriate power and energy charges.

Power Factor: This rate is based on the customer maintaining at all times a power factor of ninety five ~~ninety~~ percent (95%) ~~(90%)~~ lagging, or higher, as determined by measurement. If the average power factor is found to be less than ninety five ~~ninety~~ percent (95%) ~~(90%)~~ lagging, the power as recorded by the City's meter will be increased by three quarters (3/4) of one percent (1%) for each one percent (1%) that the power factor is less than ninety five ~~ninety~~ percent (95%) ~~(90%)~~.

Power: The kW as shown by or computed from the readings of the City's meter for the fifteen (15) minute period of customer's greatest use during the month, adjusted for power factor as specified, determined to the nearest kW.

III. Requested Service Reconnection and Disconnection Fee:
\$25.00 per reconnect or disconnect

E. LARGE COMMERCIAL (OVER 35 KW)

I. General Application

This schedule is for alternating current, single or three-phase non-residential electric service supplied at the City's available voltage, but less than 46,000 volts, at a single point of delivery through a demand or other type of metering installation for all service required on the premises by customers with a power requirement that exceeds thirty-five (35) kW during seven (7) of any continuous twelve (12) month period.

II. Monthly Billing

Customer Charge:
\$20.00 per service connection

Power Charge:
\$ 8.00 per kW for all kW over 5 kW

Energy Charge:
\$.062500 for the first 50,000 kWh
\$.048750 for all additional kWh

Minimum: The monthly customer charge plus appropriate power and energy charges.

Power Factor: This rate is based on the customer maintaining at all times a power factor of ninety percent (90%) lagging, or higher, as determined by measurement. If the average power factor is found to be less than ninety percent (90%) lagging, the power as recorded by the City's meter will be increased by three-quarters (3/4) of one percent (1%) for each one percent (1%) that the power factor is less than ninety percent (90%).

Power: The kW as shown by or computed from the readings of the City's meter for the fifteen (15) minute period of customers greatest use during the month, adjusted for power factor as specified, determined to the nearest kW.

III. Requested Service Reconnection and Disconnection Fee:
\$25.00 per reconnect or disconnect

F. INDUSTRIAL

I. General Application

This schedule is for alternating current, three-phase electric service supplied at approximately 46,000 volts, at a single point of delivery through a demand or other type of metering installation.

II. Monthly Billing

Customer Charge:
\$200.00 per service connection

Power and Energy Charge: Five percent over city's blended cost for power, energy, transmission, administrative costs, etc. plus such surcharge as required and approved by the City Council. Current surcharge is \$.005 of all kWh consumed.

Minimum: The monthly customer charge plus appropriate power and energy charges.

Power Factor: This rate is based on the customer maintaining at all times a power factor of ninety five ~~ninety~~ percent (95%) ~~(90%)~~ lagging, or higher, as determined by measurement. If the average power factor is found to be less than ninety five ~~ninety~~ percent (95%) ~~(90%)~~ lagging, the power as recorded by the City's meter will be increased by three-quarters (3/4) of one percent (1%) for each one percent (1%) that the power factor is less than ninety five ~~ninety~~ percent (95%) ~~(90%)~~.

Power: The kW as shown by or computed from the readings of the City's meter for the fifteen (15) minute Period of customer's greatest use during the month, adjusted for power factor as specified, determined to the nearest kW.

III. Requested Service Reconnection and Disconnection Fee:
\$25.00 per reconnect or disconnect

G. TEMPORARY SERVICE

I. General Application

This schedule is for alternating current, single-phase electric service supplied at approximately 120 or 240 volts through one kilowatt-hour meter at a single point of delivery for all separately metered service required on the premises for temporary purposes, such as construction, at any point on the City's interconnected system (except Blacksmith Fork Canyon) where there are facilities of adequate capacity. The City reserves the right to determine the length of time that use of a temporary service is permitted.

Temporary service is only allowed and granted for construction activity and not for any other purposes including housing, house trailer, tent, etc. Any use other than construction is required to have a permanent meter installed and will be subject to all residential service fees.

II. Monthly Billing

Customer charge:
\$30.00 per temporary panel for single-phase service

H. FORCE MAJEURE

Neither City nor customer shall be subject to any liability or damages for inability of the City to serve the Customer's load due to lack of available power and energy or other conditions beyond the City's control. In the vent of natural disasters or acts of God such as earthquakes, floods, or severe storms, neither party shall be liable for damages due to lack of ability for operations which affect the other party economically. Should any of the foregoing occur, the minimum billing demands that would otherwise be applicable under this Schedule shall be waived and Customer will have no liability for service charges until such time as Customer is reasonably able to resume service.

2. This resolution shall become effective March 1, 2022 and rates will be increased one percent (1%) each month until August 1, 2022 when the power factor fee is at ninety five percent (95%), and the rate schedules contained herein shall apply to all subsequent electrical power billings.

ADOPTED AND PASSED by the Hyrum City Council this 17th day of February, 2022.
