

Cache Valley Kids Market would like to formally introduce several members of our executive board to the new Mayor and City Council members.

We were founded in Hyrum nearly six years ago with the mission of helping children develop essential entrepreneurial skills, including communication, responsibility, confidence, and leadership. Through our markets, children have the opportunity to sell their handmade products in a real-world setting. We also provide educational workshops to further strengthen their knowledge of entrepreneurship. All of our programs and events are offered to participating children at no cost.

As we look ahead to the upcoming summer season, we are planning to adjust how our markets are structured. Rather than hosting markets every Saturday, we would love to collaborate with Hyrum City by partnering with existing community events—such as Hot Wheels, firefighter water fight, and other family-friendly activities—where our young entrepreneurs could participate and sell their products.

We believe this collaboration would create a fun, engaging environment for the community while continuing to support and inspire the youth.

Sincerely,

Trisha Clair

Secretary
