

New Zoning request

The property is currently zoned for agricultural residential. This is meant for single family dwellings, public schools, parks, churches, farm buildings and residential facilities. We are proposing this zone be changed to industrial which is meant for auto repair, kennels, light manufacturing, paint shops, storage units, commercial warehouses, office buildings, public structures and communication facilities.

We would like to work with the city and however they plan to develop in the future. We are seeking an industrial zone change primarily to accommodate businesses such as storage units in our community. In Hyrum, we have observed a growing demand for industrial services, ranging from light to heavy industry. By making this change, we aim to address this need and foster the area's development. Our goal is to support our families and children relocating here by providing essential services and contributing to the region's businesses. We think changing to an industrial zone makes sense. Nearby properties are already busy with industry. Living close to busy areas isn't ideal, so storage units, with less traffic, would be best for transitioning and will give a great buffer zone. A single family residential dwelling averages 9 in and outs per day "visits", our Logan units had 824 units along with 109 outside units that averaged 9 in and outs per day after construction was complete. To the east of our property there is a retail commercial business, and industrial to the west. This change helps create a more peaceful living environment, putting industry where it fits best.

THIS IS NOT A SITE PLAN APPROVAL FOR STORAGE UNITS. A SITE PLAN WILL NEED TO BE A SEPARATE APPLICATION IF THE ZONE CHANGE IS APPROVED BY CITY COUNCIL.

ROAD RIGHT OF WAY WILL NEED TO BE PRESERVED ON THE SOUTH SIDE OF THE PROPERTY FOR 200 NORTH. BUILDING LAYOUTS WOULD NEED TO CHANGE TO MEET ZONING REQUIREMENTS WHERE THE BACK OF THE BUILDING FACES THE STREET.
