To whomever,

Once again I'm writing to inform the city of Independence I plan on having a pollinator yard - it's sad I have to do this every year - Our priorities are not with helping the environment - why don't we educate better and let each property owner try to help Mother Nature - become a "blue town" - promote instead of hinder " and with all the land the city owns - ^{we} you should get involved!

Sincerely -
Karla Kula
