

**CITY OF INDEPENDENCE
AIRPORT BOARD
MEMORANDUM**

TO: Airport Board
FROM: Brett Soukup, Airport Manager
DATE OF MEETING: September 4th, 2024
ITEM TITLE: Report – (September 2024 Airport Report)

Fuel Sales Update

- 100LL –1,668 gal
- Jet A –1,916 gal.

- Grounds:
 - Mowing
 - Light bulb replacement on the airfield.

- Equipment:
 - John Deere tractor has had a couple of maintenance items done.

- Miscellaneous:
 - The airport has had a few leases turnover in the T-hangers in the past few months. I have decided that if time allows before someone moves into the hangar, I need to wash the walls and the floor. Some of these hangers have a lot of dust and cobwebs that need to be addressed. I have been able to clean 6 T-hangers due to people moving out or people having their planes serviced and their hangar is pretty much empty. This has been a great improvement to the hangers. We do not have any hangers open for rent currently.
 - We had a Gulfstream come in with some business people going to a neighboring town to conduct business.
 - The Independence Fire Department came out for a tour of the airport to discuss safety items, and how we would handle things.
