

METROPOLITAN DEVELOPMENT COMMISSION **January 2, 2025**

Case Number: 2024-ZON-096 / 2024-VAR-013 (2nd Amended)

Property Address: 6158 West 10th Street (Approximate Address)

Location: Wayne Township, Council District #16

Petitioner: Homes in Motion, LLC, by John Cross

Current Zoning: D-3 (W-1)

Rezoning of 1.00 acre from the D-3 (W-1) district to the C-1 (W-1) district to provide for a second driveway and parking lot of a Real Estate Office.

Request:

Variance of Use and Development Standards of the Consolidated Zoning and Subdivision Ordinance to provide for an expansion of an existing accessory structure, with a total accessory structure size of 1,215.35 square feet (maximum 10% of the primary structure, or 141 square feet permitted), a six-foot-tall fence (maximum 3.5 feet height required) and to permit outdoor storage and operations consisting of four trailers, one skid steer loader, one mini excavator and one mini backhoe (not permitted).

Current Land Use: Office

Staff Recommendations: Approval of rezoning with commitments. Denial of variances.

Staff Reviewer: Marleny Iraheta, Senior Planner

PETITION HISTORY

ADDENDUM FOR JANUARY 2, 2025, METROPOLITAN DEVELOPMENT COMMISSION

This petition was continued for cause from the December 18, 2024 hearing to the January 2, 2025 hearing at the request of staff.

The petition was amended to include a variance of development standards to expand an existing detached garage to exceed the maximum size permitted in the proposed C-1 district. The request also outlined the anticipated vehicles and equipment to be included as outdoor storage.

Per Table 743-306-1: Maximum Accessory Square Footage Total, the proposed C-1 district, if granted, would have a maximum square footage of all accessory buildings of 10% of the total gross floor area of all primary buildings.

According to calculations provided by the petitioner, the primary building measures approximately 1,419.6 square feet. The maximum square footage permitted for accessory buildings on site would be 141 square feet (10% of the primary building area) where 1,215.35 square feet would be proposed or 85.7% of the primary building area.

Department of Metropolitan Development
Division of Planning
Current Planning

The petitioner provided the following three commitments:

1. The variance will not run with the land.
2. The outdoor storage shall always be within enclosed fence portion shown on the site plan.
3. The outdoor storage is only allowed for the 4 trailers, 1 skid steer, 1 mini excavator and 1 mini backhoe, or reasonable replacements of the same if needed, and will only be stored in area shown on site plan.

Although the petitioner would propose three self-imposed commitments, staff is not supportive of the variance requests because they would be for items that would not relate to the primary office use of the site. Instead, the variances requested would be for uses and development standards that would not be required if the office use was the only use on site.

Staff **continues to recommend approval** of the rezoning subject to the following commitments being reduced to writing on the Commission's Exhibit "B" forms at least three days prior to the MDC hearing:

1. A 56-foot half right-of-way shall be dedicated along the frontage of 10th Street, as per the request of the Department of Public Works (DPW), Engineering Division. Additional easements shall not be granted to third parties within the area to be dedicated as public right-of-way prior to the acceptance of all grants of right-of-way by the DPW. The right-of-way shall be granted within 60 days of approval and prior to the issuance of an Improvement Location Permit (ILP).
2. A 40-foot half right-of-way shall be dedicated along the frontage of High School Road, as per the request of the Department of Public Works (DPW), Engineering Division. Additional easements shall not be granted to third parties within the area to be dedicated as public right-of-way prior to the acceptance of all grants of right-of-way by the DPW. The right-of-way shall be granted within 60 days of approval and prior to the issuance of an Improvement Location Permit (ILP).
3. Approval shall be conditional upon the closure of the driveway off Vinewood Street within 60 days of approval of the request and the removal of the driveway pavement within six months of the approval of the request. The only entrance to the site shall be the new driveway proposed off North High School Road. At a minimum the section of the driveway in the right-of-way shall be removed in addition to 20 feet west of the eastern property boundary that would comprise of the 20-foot transitional yard requirement.
4. Any area utilized for parking and maneuverability shall be paved in accordance with the Ordinance standards. A gravel parking lot shall not be permitted.
5. A revised plan of operation shall be submitted to staff for review and approval shall be subject to said plan of operation.

Staff **recommends denial** of the variance requests.

ADDEMDUM FOR DECEMBER 18, 2024 METROPOLITAN DEVELOPMENT COMMISSION

This petition was transferred from the November 14, 2024 hearing of the Hearing Examiner to the December 18, 2024 hearing of the Metropolitan Development Commission for initial hearing at the request of the Hearing Examiner. This petition was to be amended and required new notice.

Staff requested a continuance for cause from the December 18, 2024 hearing to the January 2, 2025 hearing of the Metropolitan Development Commission with new notice due to an error by staff. The Legal Notice deadline for the December 18, 2024 hearing before the Metropolitan Development Commission was missed and notices for the January 2, 2025 hearing were provided and mailed.

ADDEMDUM FOR NOVEMBER 14, 2024 HEARING EXAMINER

This request was amended to include a six-foot tall fence and to allow outdoor storage and operations on site.

Fences are limited to 3.5 feet in the front yard in the C-1 district where the proposal would have a six-foot fence in the front yard of Vinewood Street and High School Road per the final site plan provided in the staff report.

Staff did not find that a practical difficulty exists to grant approval of the six-foot fence when the fence could align with the northern building façade and could be relocated behind the building.

Outdoor storage and operations are not permitted as primary or accessory uses in the C-1 district. The use is only permitted as an accessory use in the more intense districts such as C-5, C-7, and all industrial districts.

Because the use of the primary building is for office use, staff did not find that it calls for outdoor storage and operations. Per the amended plan of operation dated November 6, 2024, the owner's personal vehicles to be stored would include four (4) trailers. Staff determined these commercial vehicles would not be appropriate to store on site since they would not be associated with the business.

Staff would note that the proposed final site plan also shows a garage addition that would expand an existing garage in the front yard, which is not permitted.

Staff **recommends denial** of the variance requests.

Staff **recommends approval** of the rezoning subject to the following commitments being reduced to writing on the Commission's Exhibit "B" forms at least three days prior to the MDC hearing:

1. A 56-foot half right-of-way shall be dedicated along the frontage of 10th Street, as per the request of the Department of Public Works (DPW), Engineering Division. Additional easements shall not be granted to third parties within the area to be dedicated as public right-of-way prior to the acceptance of all grants of right-of-way by the DPW. The right-of-way shall be granted within 60 days of approval and prior to the issuance of an Improvement Location Permit (ILP).
2. A 40-foot half right-of-way shall be dedicated along the frontage of High School Road, as per the request of the Department of Public Works (DPW), Engineering Division. Additional easements shall not be granted to third parties within the area to be dedicated as public right-

Department of Metropolitan Development
Division of Planning
Current Planning

of-way prior to the acceptance of all grants of right-of-way by the DPW. The right-of-way shall be granted within 60 days of approval and prior to the issuance of an Improvement Location Permit (ILP).

3. Approval shall be conditional upon the closure of the driveway off Vinewood Street within 60 days of approval of the request and the removal of the driveway pavement within six months of the approval of the request. The only entrance to the site shall be the new driveway proposed off North High School Road. At a minimum the section of the driveway in the right-of-way shall be removed in addition to 20 feet west of the eastern property boundary that would comprise of the 20-foot transitional yard requirement.
4. Any area utilized for parking and maneuverability shall be paved in accordance with the Ordinance standards. A gravel parking lot shall not be permitted.
5. A revised plan of operation shall be submitted to staff for review and approval shall be subject to said plan of operation.

ADDEMDUM FOR SEPTEMBER 26, 2024 HEARING EXAMINER

This petition was continued from the September 12, 2024 hearing to the September 26, 2024 hearing at the request of the petitioner.

The petitioner provided an updated site plan and a plan of operation both file-dated September 12, 2024, that showed some changes to the proposal. First, the site plan shows the closure of the eastern driveway with bollards, that staff would not support since the intent would be to eliminate the driveway in its entirety, which staff clarified in a commitment for the pavement to be removed within a six-month timeframe. Second, the fence would be relocated to align with the location of the existing detached garage but would still require a variance for it to be in the front yard of the primary building. Third, the gravel parking area would be shown to be paved with new asphalt, but it is still unclear whether all the proposed pavement is necessary for a small office use. Fourth, the outdoor storage would still be proposed on site, which would require a variance of use to be filed and staff would not support this request since it would not relate to the business on site and it not permitted in the C-1 district that is proposed to be next to single-family dwellings.

Staff still finds that a C-1 zoning district would be appropriate, but only for office use subject to the seven commitments outlined in the staff report.

September 12, 2024

This is the first public hearing for this petition.

STAFF RECOMMENDATION

Staff **recommends approval** subject to the following commitments being reduced to writing on the Commission's Exhibit "B" forms at least three days prior to the MDC hearing:

1. A 56-foot half right-of-way shall be dedicated along the frontage of 10th Street, as per the request of the Department of Public Works (DPW), Engineering Division. Additional easements shall not be granted to third parties within the area to be dedicated as public

- right-of-way prior to the acceptance of all grants of right-of-way by the DPW. The right-of-way shall be granted within 60 days of approval and prior to the issuance of an Improvement Location Permit (ILP).
2. A 40-foot half right-of-way shall be dedicated along the frontage of High School Road, as per the request of the Department of Public Works (DPW), Engineering Division. Additional easements shall not be granted to third parties within the area to be dedicated as public right-of-way prior to the acceptance of all grants of right-of-way by the DPW. The right-of-way shall be granted within 60 days of approval and prior to the issuance of an Improvement Location Permit (ILP).
 3. Approval shall be conditional upon the closure of the driveway off Vinewood Street within 60 days of approval of the request and the removal of the driveway pavement within six months of the approval of the request. The only entrance to the site shall be the new driveway proposed off North High School Road.
 4. Any area utilized for parking and maneuverability shall be paved in accordance with the Ordinance standards. A gravel parking lot shall not be permitted.
 5. There shall be no outdoor storage of equipment or commercial vehicles on site.
 6. The six-foot tall privacy fence in the front yard shall be removed or reduced to three feet in height within 60 days of approval of the request.
 7. A plan of operation shall be submitted to staff for review and approval shall be subject to said plan of operation.

PETITION OVERVIEW

LAND USE

The subject site is developed with a single-family dwelling, detached garage, paved parking, gravel parking lot, and enclosed fenced in area. A real estate office, one 24-square foot ground sign, and two 15-square foot wall signs were approved per 2019-UV2-005.

The property is surrounded to the west, north and east by single-family dwellings zoned D-3 and commercial uses to the south zoned C-5.

REZONING

The request would rezone the property from the D-3 district to the C-1 district for a real estate office. The proposal would include a second driveway and parking lot.

The D-3 district provides for low or medium intensity residential development. Land in this district should have good thoroughfare access, be relatively flat in topography, and be afforded pedestrian linkages to community and neighborhood services and facilities (schools, parks, shopping areas, etc.). Recreational facilities developed for the neighborhood complement the treed yards on the individual lots. Predominantly single-family detached dwellings are envisioned with two-family dwellings on corner lots in this district. The D-3 district has a typical density of 2.6 units per gross acre. This district fulfills the low-density residential classification of the Comprehensive General Land Use Plan. All public utilities and

facilities must be present. Development plans, which may include the use of clustering, should incorporate, and promote environmental and aesthetic considerations, working within the constraints and advantages presented by existing site considerations, including vegetation, topography, drainage and wildlife.

The C-1 District is designed to perform two functions: act as a buffer between uses, and provide for a freestanding area that office uses, compatible office-type uses, such as medical and dental facilities, education services, and certain public and semipublic uses may be developed with the assurance that retail and other heavier commercial uses with incompatible characteristics will not impede or disrupt. Since the buildings for office, office-type and public and semipublic uses are typically much less commercial in appearance, landscaped more fully and architecturally more harmonious with residential structures, this district can serve as a buffer between protected districts and more intense commercial or industrial areas/districts - if designed accordingly. This district, with its offices and other buffer type uses, may also be used along certain thoroughfares where a gradual and reasonable transition from existing residential use should occur.

DEPARTMENT OF PUBLIC WORKS

The Department of Public Works, Traffic Engineering Section, has requested the dedication and conveyance of a 56-foot half right-of-way along 10th Street and a 40-foot half right-of-way along High School Road. This dedication would also be consistent with the Marion County Thoroughfare Plan.

STAFF ANALYSIS

The site is currently used as a real estate office per a use variance granted in 2019. Rezoning to the C-1 district would align the existing use with the correct zoning district instead of it continuing to operate under a use variance. In staff's opinion, the continued business operation with the corrected zoning district would not adversely affect the surrounding residential properties.

With the C-1 zoning district being a buffer district between more intense uses, such as medium or heavy commercial uses, and less intense uses, such as residential uses, the proposed C-1 rezoning would allow for a buffer between the C-5 district to the south and D-3 district to the north.

The suburban neighborhood recommendation of the Comprehensive Plan supports a variety of neighborhood-serving businesses, institutions, and amenities which means the zoning district and use would align with this recommendation.

However, staff has a few concerns that were made apparent during the site visit. The site was subject to a site plan that preserved much of the site as open space. The area west and north of the primary building has been enclosed with a six-foot tall privacy fence and layered with gravel for storage of equipment and commercial vehicles as shown in the site photos.

The six-foot tall fence would not be permitted in the front yard of High School Road and would need to be reduced to the permitted three-foot height or completely removed from the site. Staff would not support a variance for the six-foot tall fence to remain in the front yard.

The outdoor storage of commercial equipment and vehicles would need to be eliminated from the site since outdoor storage is not permitted in the C-1 district.

Any area proposed for parking and maneuverability would need to be paved since gravel parking lots are not permitted in commercial districts.

Lastly, staff would request that the driveway off Vinewood Street be closed leaving the only access to the site from High School Road since it is a dangerous intersection to attempt to access the driveway when traveling north on Vinewood Street.

If the petitioner is agreeable to commitments to correct the fence on site, eliminate the outdoor storage, pave the parking lot, and remove the driveway along Vinewood Avenue, then staff would be supportive of the C-1 rezoning request. A plan of operation should be submitted for staff review and approval to confirm the business operation on site is permitted since there are many concerning factors on site. Approval shall be subject to said plan of operation to be submitted.

COMPREHENSIVE PLAN ANALYSIS

Comprehensive Plan

- Marion County Land Use Plan Pattern Book (2019)
- Indy Moves Transportation Integration Plan (2018)

Pattern Book / Land Use Plan

- The Marion County Land Use Plan Pattern Book (2019) recommends suburban neighborhood development for the site.
- The Suburban Neighborhood typology is predominantly made up of single-family housing but is interspersed with attached and multifamily housing where appropriate. This typology should be supported by a variety of neighborhood-serving businesses, institutions, and amenities. Natural Corridors and natural features such as stream corridors, wetlands, and woodlands should be treated as focal points or organizing systems for development. Streets should be well-connected, and amenities should be treated as landmarks that enhance navigability of the development. This typology generally has a residential density of 1 to 5 dwelling units per acre, but a higher density is recommended if the development is within a quarter mile of a frequent transit line, greenway, or park.
- **Small-Scale Offices, Retailing, and Personal or Professional Services**
 - If proposed within one-half mile along an adjoining street of an existing or approved residential development, then connecting, continuous pedestrian infrastructure between the proposed site and the residential development (sidewalk, greenway, or off-street path) should be in place or provided.
 - Should be located at the intersections of arterial streets and should be no closer than one mile to another commercial node with one acre or more of commercial uses except as reuse of a historic building.
 - Should be limited to an aggregate of 3.5 acres per intersection, with no one corner having more than 1.5 acres. Should be limited to areas and parcels with adequate space for required screening and buffering.
 - Automotive uses (such as gas stations and auto repair) and uses requiring separation of greater than 20 feet under the zoning ordinance (such as liquor stores, adult uses, and drive-through lanes) are excluded. Should not include outdoor display of merchandise.

- Office uses are contemplated within the suburban neighborhood typology, which is why staff determined the request would be supportable.

ZONING HISTORY

Zoning History - Site

2019-UV2-005; 6158 West 10th Street (subject site), Variance of use and development standards of the Consolidated Zoning and Subdivision Ordinance to provide for a real estate office (not permitted) and one 24-square foot ground sign and two 15-square foot wall signs (ground signs permitted for subdivision and projects only, one wall sign permitted and sign area of three percent of façade permitted), **approved**.

99-UV1-160; 6158 West 10th Street (subject site), Variance of use of the Dwelling Districts Zoning Ordinance to provide for an assisted transportation business for handicapped persons, with parking for 2 vans in a detached garage, **denied**.

Zoning History - Vicinity

2006-DV2-016; 1010 Center Drive (northeast of site), Variance of Development Standards of the Dwelling Districts Zoning Ordinance to provide for the construction of a 13-foot tall, 766-square foot detached garage located between the established front building line and the right-of-way (not permitted), **granted**.

99-V3-6; 6112 Mount Auburn Drive (northwest of site), variance of development standards of the Dwelling Districts Zoning Ordinance to provide for the constructions of a 936-square foot detached accessory garage, being 80% of the primary structure, **granted**.

94-VAC-26; 1001-1009 Mount Auburn Drive North (west of site), Vacation of a portion of unimproved Mount Auburn Drive, being 50 (+/-) feet in width, from the northern right-of-way line of West 10th Street to the southern right-of-way line of North High School Road, **granted**.

90-Z-225; 5909 West 10th Street (south of site), Rezoning of 19.3 acres, being in the C-5 District, to the C-5 classification to provide for commercial development, **approved**.

86-UV1-152; 6025 West 10th Street (southeast of site), Variance of use of the Commercial Zoning Ordinance to provide for the outside storage, sales, and processing of firewood, **withdrawn**.

79-Z-104; 6025 West 10th Street (south of site), Rezoning of 10.2 acres, being in an A-2 and an SU-34 zoning districts, to a C-5 classification to provide for operation of a flower shop, **approved**.

70-UV3-34; 1010 North High School Road (west of site), requested a variance of use of the Dwelling Districts Zoning Ordinance to provide for general office use, within an existing building, **granted**.

Existing privacy fence

FINAL SITE PLAN

FINAL AMENDED SITE PLAN

Variance of Developmental Standards: To meet dwelling district and C-1 developmental standards, the following variance is requested:

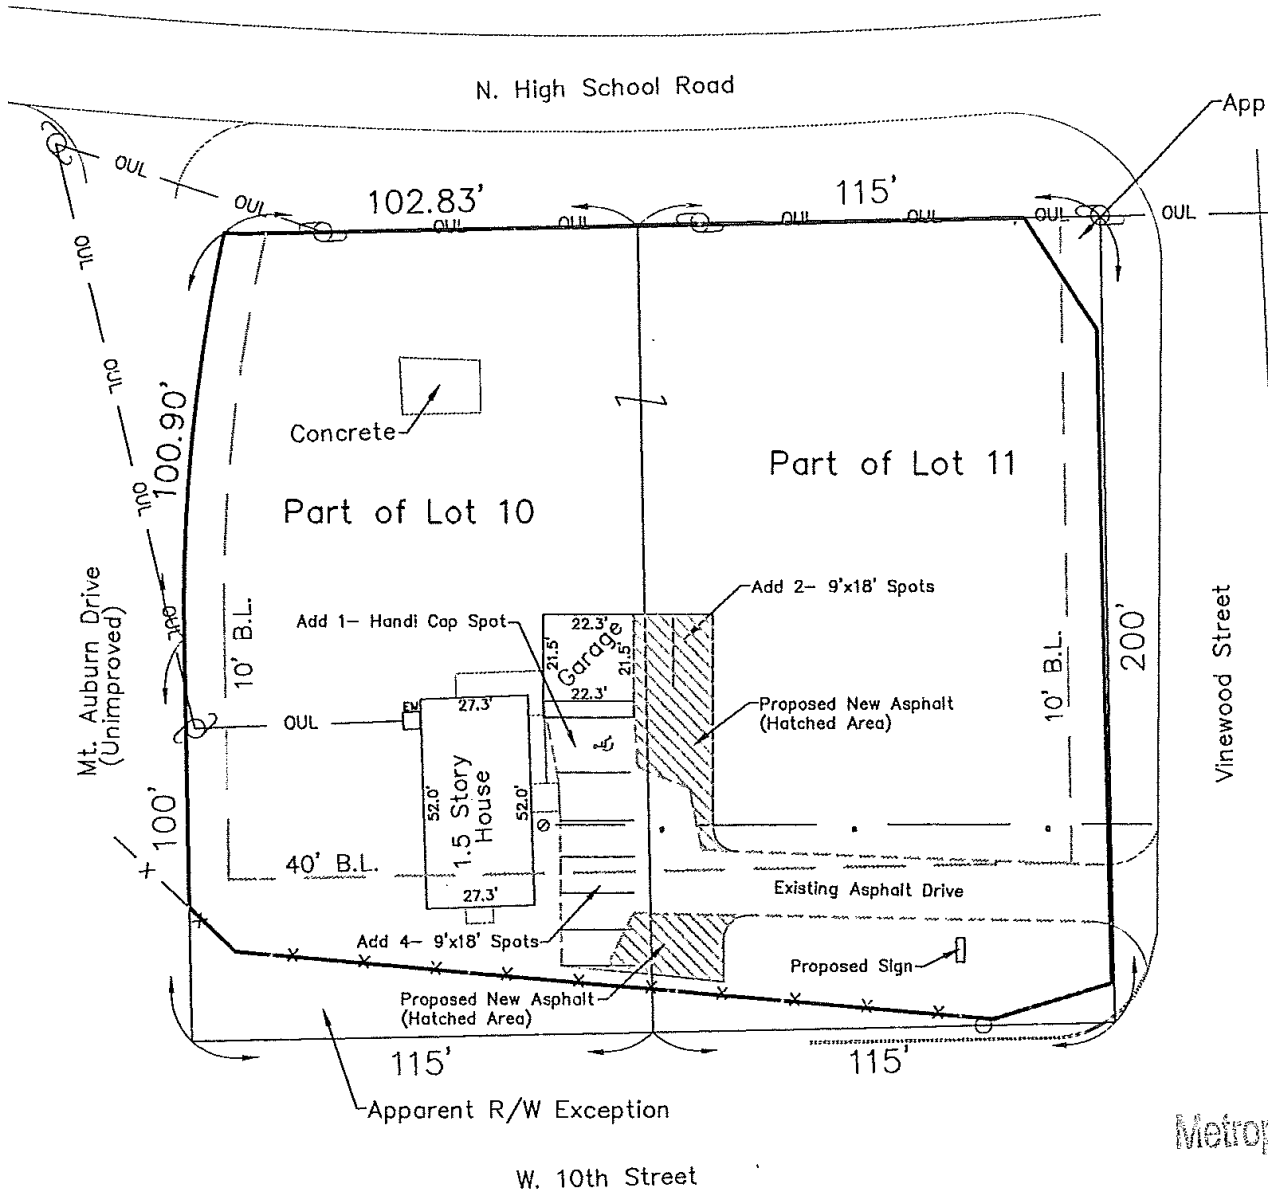

1. Six (6) foot maximum height of fence in northern front yard (3.5 feet required). *See* Table 744-510-2.
2. To legally establish an accessory building with maximum square footage of 85.7% of the total gross floor area of all primary buildings (10% permitted). *See* Tale 743-306-1.
 - a. Existing House: $52 \times 27.3 = 1,419.6$ sq. ft. $\rightarrow 10\% = 141$
 - b. Existing Garage: $21.5 \times 22.3 = 479.45$ sq. ft.
 - c. Accessory Structure Addition: $33 \times 22.3 = 735.9$ sq. ft.
 - d. Total Accessory Structure = $1,215.35$ sq. ft. (85.7% coverage)

Variance of Use: To permit limited Outdoor Storage and Operations at the property. *See* Table 743-1.

To limit the impact of this use Petitioner proposes the following commitments:

1. The variance will not run with the land.
2. The outdoor storage shall always be within enclosed fence portion shown on the site plan.
3. The outdoor storage is only allowed for the 4 trailers, 1 skid steer, 1 mini excavator and 1 mini backhoe, or reasonable replacements of the same if needed, and will only be stored in area shown on site plan.

2019-UV2-005 Site Plan

Plan of operation

September 2024

Use: Operation of a real estate sales business at 6158 W 10th St., Indianapolis, In 46214, with minor accessory storage of trailers and equipment outside within fenced area.

Owner.

Homes In Motion LLC

6158 W. 10th St.

Indianapolis, IN 46214

Occupying Tenant.

Canon Real Estate Services LLC

6158 W. 10th St.

Indianapolis, IN 46214

Homes In Motion LLC and Canon Real Estate Services LLC are owned by the same principal.

Description of the property.

- 1.The improvements on 6158 W 10 Th St consists of a 1252 square foot, 3 bed room, 1 bath single family home with a ¾ unfinished basement and a two car detached garage.
- 2.Access to the proposed office entrance has standard steps with hand rails and a handicap ramp for safe access.

Security.

- 1.The property is equipped with a 24 hour monitored alarm system, lighting on all four sides of the improvement and twenty four hour night vision video surveillance.

Business operations.

- 1.Hours of operation Monday through Friday 8AM to 5 PM.
- 2.The living area will be use as a reception area and two of the bedrooms will be used as offices and the third for storage.
3. 3 employees occupy the space, two real estate agents and one receptionist.
4. Low to no client volume. Clients are met away from the office typically.

Limited Outdoor Storage.

Storage of owner's equipment for projects. 4 trailers, 1 skid steer, 1 mini excavator and 1 mini backhoe. The equipment and trailers don't move for weeks or even months at a time.

AMENDED PLAN OF OPERATION

Updated Plan of Operation

November 6 2024

Petition No. 2024-ZON-096 / 2024-VAR-013 (Amended)

Use: Operation of a real estate sales business at 6158 W 10th St., Indianapolis, In 46214, with minor accessory storage of trailers and equipment outside within fenced area.

Owner.

Homes In Motion LLC
6158 W. 10th St.
Indianapolis, IN 46214

Occupying Tenant.

Canon Real Estate Services LLC
6158 W. 10th St.
Indianapolis, IN 46214

Homes In Motion LLC and Canon Real Estate Services LLC are owned by the same principal.

Description of the property.

- 1.The improvements on 6158 W 10 Th St consists of a 1252 square foot, 3 bed room, 1 bath single family home with a ¾ unfinished basement and a two car detached garage.
- 2.Access to the proposed office entrance has standard steps with hand rails and a handicap ramp for safe access.

Security.

- 1.The property is equipped with a 24 hour monitored alarm system, lighting on all four sides of the improvement and twenty four hour night vision video surveillance.

Business operations.

- 1.Hours of operation Monday through Friday 8AM to 5 PM.
- 2.The living area will be use as a reception area and two of the bedrooms will be used as offices and the third for storage.
3. 3 employees occupy the space, two real estate agents and one receptionist.
4. Low to no client volume. Clients are met away from the office typically.

Limited Outdoor Storage.

Storage of owner's equipment for projects. 4 trailers.

The trailers don't move for weeks or even months at a time. Owner uses the trailers for purposes unrelated to the real estate office. The equipment is not used at the property but is stored for convenience and transported when needed elsewhere and then returned. The storage area is kept nicely and screened by the fence. Petitioner intends to file a variance of use for this limited storage and would commit that it would not run with the land but would terminate with current ownership.

METROPOLITAN DEVELOPMENT COMMISSION
HEARING EXAMINER
METROPOLITAN BOARD OF ZONING APPEALS, Division [REDACTED]
OF MARION COUNTY, INDIANA

PETITION FOR VARIANCE OF USE

FINDINGS OF FACT

1. THE GRANT WILL NOT BE INJURIOUS TO THE PUBLIC HEALTH, SAFETY, MORALS, AND GENERAL WELFARE OF THE COMMUNITY BECAUSE

the outdoor storage is limited to certain equipment and will be screened and enclosed within a 6-foot fence. The equipment is not used at the property but only stored and transported away so there is no operational impact on the surrounding area.

[REDACTED]

2. THE USE AND VALUE OF THE AREA ADJACENT TO THE PROPERTY INCLUDED IN THE VARIANCE WILL NOT BE AFFECTED IN A SUBSTANTIALLY ADVERSE MANNER BECAUSE

the variance is limited in scope and duration and will not run with the land. The storage is screened and located within an enclosed fence so is not viewable from surrounding properties. The storage is adequately distanced from residential dwellings and will not impact any property values.

[REDACTED]

3. THE NEED FOR THE VARIANCE ARISES FROM SOME CONDITION PECULIAR TO THE PROPERTY INVOLVED BECAUSE

The equipment is used in relation to petitioner's other real estate business ventures. Typically the equipment remains at the property in storage and is only transported as needed. The property does not permit outdoor storage so the variance of use is needed.

[REDACTED]

4. THE STRICT APPLICATION OF THE TERMS OF THE ZONING ORDINANCE CONSTITUTES AN UNUSUAL AND UNNECESSARY HARDSHIP IF APPLIED TO THE PROPERTY FOR WHICH THE VARIANCE IS SOUGHT BECAUSE

the equipment is adequately screened from surrounding properties. The property's proximity to 10th Street and 465 makes the property suitable for such limited storage. The storage will not negatively impact surrounding owners. Petitioner has no other location to store the equipment. The variance will not run with the land which lessens future use of the property.

[REDACTED]

5. THE GRANT DOES NOT INTERFERE SUBSTANTIALLY WITH THE COMPREHENSIVE PLAN BECAUSE

Petitioner operates a real estate office at the property and also runs a real estate investment company. The equipment is used in correlation with the real estate investment business. While not ancillary to the property use, it is a light increase of use on the property. Given the property's close location to 10th Street and 465 the variance will not have any substantial impact on the comprehensive plan. The variance will not run the land.

[REDACTED]

DECISION

METROPOLITAN DEVELOPMENT COMMISSION
HEARING EXAMINER
METROPOLITAN BOARD OF ZONING APPEALS, Division [redacted]
OF MARION COUNTY, INDIANA

PETITION FOR VARIANCE OF DEVELOPMENT STANDARDS

FINDINGS OF FACT

1. The grant will not be injurious to the public health, safety, morals, and general welfare of the community because:

the fence will be in line with the existing garage on the property and no closer to N High School Rd than the fence on the western property. The subject property technically has three front yards and is a corner lot. The fence height and location would not be inconsistent with other corner lot properties that can permit exceptions to the fence height maximum standard. In addition the fence height will benefit the area by providing screening for the limited outdoor storage. The primary building is 1,419 sq. ft. and existing garage is 479 sq. ft. which is small coverage on the 1 acre lot. The expanded accessory building size (1,215.35 sq. ft.) poses no harm injurious impact as it will be used for storage and comparable to an expansion of the primary building.

2. The use or value of the area adjacent to the property included in the variance will not be affected in a substantially adverse manner because:

the fence height is consistent with the fence height on the western property and northern property. The subject property is surrounded on the north, east, and south by streets giving the property three front yards. The property front door faces south so the north side is not used as an entrance. The fence will be in line with the garage so will have no negative impact on surrounding properties but instead will provide a benefit of screening. The expanded accessory building will not negatively impact the area as the lot is large enough to fit the proposed size. The result is comparable to having a larger primary building but will permit additional storage of equipment instead of being stored outdoors.

3. The strict application of the terms of the zoning ordinance will result in practical difficulties in the use of the property because:

the property is surrounded by streets on the north, east, and west meaning the property has three front yards. The property has a limited area in the side yard for a fence. The fence is used partially for outdoor storage and is needed for additional space. The fence will not be closer to the road than the garage. Side yards allow 6 foot fences and the location of the fence, being in line with the garage, is akin to a side yard location making the 6-foot height standard acceptable. For the accessory building, the lot was constructed for residential use and the garage will be enlarged. The lot was not constructed under C-1 standards. The primary structure is smaller and expansion of the accessory building is more practical given the layout of the improvements and intended use for the needed expansion (storage).
