PETITION OVERVIEW

SITE PLAN AND DESIGN

The subject site is zoned D-P and is undeveloped. It was rezoned to the D-P classification in 2004 (2004-ZON-070) to provide for the proposed single-family residential development. The D-P was amended in 2005 to include a 32-acre park (2005-APP-084). The subject petition would be Section Three of Clifton Trace. The proposed plat generally meets the standards of the zoning classification and the zoning commitments.

STREETS

The plat would provide for two new streets and extensions of two streets, which would all be local streets. The extended streets would generate from Section Two of this development to the south. This Section was platted via 2024-PLT-026. The streets would lead to two access points to 42nd Street, one of which is within Section One, to the west.

SIDEWALKS

Sidewalks are required along Carroll Road and all proposed interior streets.
